

# *Tucker Family Farms* **Professional Replacement Female Sale**

Fall-Calving Commercial Bred Heifers

40+ years of wholly owned and developed heifer rearing coupled with 30+ years of feedlot performance and carcass data collection have focused our program on maternal function, performance, and end-product merit.

**Wednesday, April 17, 2024**

**Sale 2:00 pm EDT • Lunch 12:30 EDT**

**at the farm • 713 Indian Creek Rd, Amherst, VA 24521**

Friends,

Feed and fertilizer are down. Spring has come early. Despite the fall drought there appears to be enough hay. Fundamental Supply and Demand economic forces are in play and cattle are High! The cow/calf segment is finally in the driver's seat and it is time to put the pedal down. Cull cows are bringing record premiums. Now is the time to use that revenue to add young high quality females to your herd. The fundamentals look good for the next several years and the old cows need to go.

Developing our replacement heifers for profit minded cow/calf producers in the mid-Atlantic region has been our passion for 41 years. While we continue to learn, and refine our process, we believe it is our time-tested recipe of harvesting the benefits of maternal heterosis, aggressive utilization of Artificial Insemination, and competing against seedstock producers to own the best, balanced trait natural service sires available that is responsible for the outstanding set of females we are proud to offer on April 17th. Our goal is to offer a replacement female that is equal parts: functional, efficient, and prolific, yet also contributes calf value traits that help our customers achieve the maximum return on their investment in superior replacement females.

We encourage you to study the matings we have created using some of the best AI Sires in the industry. Our three primary composite lines; (Power Blacks, Maternal Mamas, and Target Reds) have evolved from a disciplined approach to balanced, multi-generational selection. Don't overlook the quality of our Natural Service Sires on these females. These bulls represent a significant investment on our part and all were selected to bring many things to "the party" in addition to calving ease. Our fall 2023 purchases of young sires are truly outstanding. Make sure to ask about them. They are individually mated to each female to best complement her genetic profile.

Four decades of feedlot performance analysis and carcass data evaluation have allowed us to fine tune our selection for cattle that excel on feed as well as in the pasture. Grid premiums on the steer mates to these heifers exceed \$200 per head. By focusing on feed efficiency we have created Mama cows that are capable of higher stocking rates translating to more pounds of calf marketed per acre and steers that earn those PRIME premiums with lower feed costs.

All sale cattle will be available for viewing from April 1st through the sale date Wednesday, April 17th @ 2:00 EST. We will re-ultrasound the natural service females on April 12th to provide you with the most accurate information on sale day. In addition, all heifers will be poured, lept and pinkeye boosted, and ready to turn out. We will have trusted representatives to handle telephone bids if you cannot attend, or you can choose to participate directly through our telo auction line.

Tucker Family Farms' Sale veterans, we thank you for your past support. If this is the first year you have attended our Professional Replacement Female Sale, we look forward to having you appraise our program and the excellent set of replacements we have provided. Lastly, we genuinely value the fellowship of the day, and invite you to join us for our Sale Day Lunch. We will be serving our popular burgers @ 12:30 EST. As always, My Guarantee is my name and I am always available for inquiries both before and after the sale. We are excited about the future and want to share that excitement with you,

- Bill

## **Professional Replacement Female Sale**

### **Bill Tucker's contact information:**

Email: [betterheifers@gmail.com](mailto:betterheifers@gmail.com) • Cell: 434-944-2292

Tom Strahm, American Gelbvieh Association • 785-547-7999

Reese Tuckwiller, Regional Manager, American Angus Association • 308-360-3048

**Greg Comstock** has helped us acquire herd sires when we couldn't be at a sale. Greg is available to provide an unbiased third party opinion of the cattle, so please feel free to contact Greg.

Cell: 804-647-0127 • [greg@groopluc.com](mailto:greg@groopluc.com)

We will be serving lunch prior to the sale.

**Tel-O-Auction:** If you cannot be with us on sale day, you may use our new Tel-O-Auction conference line on sale day. We will have a live auctioneer, Jim Johnson on the line, as well as me in the barn. Please call me ahead to register as a buyer or directly to the line on sale day. During the sale call 1-800-309-2350 (conference ID number 4505514#, then speak your name when prompted and press #). You may choose to exercise this option at home or from your vehicle at the sale site.

**1) Heifers will sell in catalog order.**

**2) All A.I. bred heifers have been ultrasounded to determine: service sire, expected due date, and fetal sex. Due to ultrasounding at an earlier date, that same data was unavailable for natural service bred females in time for the catalog. However, the Natural Service Females will be ultrasounded at a later date, and their pregnancy data will be available on a pre-sale supplement.**

**3) Heifers are lotted in like groups based on pedigree and pregnancy status. The successful bidder may elect to select one, two, three, etc., or take the entire lot.**

**4) All heifers are safe in calf per service stated in the catalog, meet all Virginia Premium Assured Plus Guidelines for health and exceed the Guidelines for Genetics.**

**5) Announcements from the auction block take precedence over this and any other printed material.**

Lot 1		Description											
		5 A.I. Bred Black Balancer Heifers											
ID	Sire	Reg. No.	Service Sire				Reg. No.	Due Date	Fetal Sex				
1077	KCF Bennett Homestead C607	AAA#18491490	bred AI to YON Flagship J974				AAA#20024449	9/7/24	Bull				
1079	KCF Bennett Homestead C607	AAA#18491490	bred AI to YON Flagship J974				AAA#20024449	9/7/24	Bull				
1093	KCF Bennett Homestead C607	AAA#18491490	bred AI to YON Flagship J974				AAA#20024449	9/7/24	Heifer				
1097	KCF Bennett Homestead C607	AAA#18491490	bred AI to YON Flagship J974				AAA#20024449	9/7/24	Bull				
1098	KCF Bennett Homestead C607	AAA#18491490	bred AI to YON Flagship J974				AAA#20024449	9/7/24	Heifer

KCF Bennett Homestead C607 (AN)		179	61	23	11	-.7	55	108	.93	.43	33	8	10
Service Sire		\$B	\$W	Doc	CED	BW	WW	YW	MARB	REA	MLK	HP	CEM
YON Flagship J974 (AN)		219	76	31	18	-.7	88	158	1.60	.79	25	10	19

*We mate these sale heifers to set our customers for success and the lead-off lot in our 2024 Professional Replacement sale demonstrates just that. You get the reliability, longevity and functionality of these Homestead daughters, and we've mated them to Yon Flagship to maximize calf value. Flagship delivers Top 1% marbling and 1% RADG, so the calves carried by the Lot 1 heifers will earn more PRIME premiums, and eat less feed getting there. No wonder Flagship ranks in the top 1% for \$Grid Value and \$Beef Value.*

Lot 2		Description											
		2 A.I. Sired and A.I. Bred Angus Heifers											
ID	Sire	Reg. No.	Service Sire				Reg. No.	Due Date	Fetal Sex				
1088	Tehama Tahoe B767	AAA#17817177	bred AI to BJ Surpass				AAA#19774516	9/7/24	Heifer				
1099	Tehama Tahoe B767	AAA#17817177	bred AI to BJ Surpass				AAA#19774516	9/7/24	Bull

BJ Surpass		110	77	24	11	.1	67	109	.75	.62	32	15	13

*We love the Tahoe daughters; they'll put shape and natural thickness back into the cowherd and do it in a slick haired, easy fleshing package. If you're a cow/calf producer who sells weaned calves by the pound, you'll appreciate the Tahoe bloodline and his well deserved Top 1% \$Weaning Value. We mated these females to BJ Surpass, whose EPD tabulation predicts to improve foot structure and reduce mature cow maintenance energy requirement, while adding Top 1% Maternal Value.*

Lot 3		Description											
		2 A.I. Sired and A.I. Bred Angus Heifers											
ID	Sire	Reg. No.	Service Sire				Reg. No.	Due Date	Fetal Sex				
1083	GAR Hometown	AAA#19266718	bred AI to RiseAbove				AAA#20516965	9/7/24	Bull				
1085	GAR Hometown	AAA#19266718	bred AI to RiseAbove				AAA#20516965	9/7/24	Bull				
Sire		\$B	\$W	Doc	CED	BW	WW	YW	MARB	REA	MLK	HP	CEM

Service Sire		\$B	\$W	Doc	CED	BW	WW	YW	MARB	REA	MLK	HP	CEM
Stellflug Hoffman RiseAbove		167	93	24	11	1.8	96	153	.60	.70	26	16.4	9

*With their sire's "off-the-charts" Marbling and breed leading Ribeye area means these slick-haired Hometown daughters are capable of swinging for the fences. Their mating to RiseAbove only assures there'll be more pay-weight at sale time. Whether you sell at weaning, yearling, or retain ownership and sell them hanging, RiseAbove has you covered with his 1%, 4% and 4% ranks for weaning weight, yearling weight and carcass weight respectively.*

Lot 4		Description											
		2 A.I. Sired & A.I. Bred Angus Heifers											
ID	Sire	Reg. No.	Service Sire					Reg. No.	Due Date	Fetal Sex			
1082	Connealy Uptown 098E	AAA#16896296	bred AI to Mountain Sustain					AAA#19355516	9/7/24	Heifer

Connealy Restore I78C		163	91	23	11	-1.2	76	133	.84	1.02	41	14.8	10	

*If you can desire extra horsepower, check out Lot 7. Six daughters of Feedlot who ranks in the Top 1% or better for Weaning, Yearling, Carcass Weight, ADG, and GridMaster Index, and better than Top 10% for Marbling, REA and Yield Grade. For balance, we mated all six heifers to Restore who contributes best 1% \$Maternal Value and \$Weaning Value in addition to his lowest 10% birthweight EPD and best 10% foot structure.*

*Feedlot is a Top 1% GridMaster with 5 traits in the top 2% of all Red Angus sires and improves marbling and yield grade at the same time. He is sired by Brown Oracle B112 who is one of the very high Red Angus bulls on the new Zoetis Fertility EPD used in \$Profit.*

Lot 12 features some of our best investments in Knoll Crest Farm Angus genetics. Both the Baker Valley and Colonel sons have made an impact on our program through the consistency and maternal quality of the daughters they've left in our herd. They are A.I. mated to two Top 1% \$Maternal Value sires, BJ Surpass and Yon Top Cut.

**Tehama Tahoe B767**  
Daughters sell in Lots 2 and 19

**Yon Top Cut**  
Service Sire on Lots 10, 12 and 16

Lot 13		Description												
		4 A.I. Bred Black and BWF Balancer Heifers												
ID	Sire	Reg. No.	Service Sire				Reg. No.	Due Date	Fetal Sex

*These F907 daughters come with a healthy shot of heterosis being 25% Gelbvieh, but phenotypically, they'll fit right in to an Angus herd. To top it off, F907 excels for docility and maternal calving ease and is a proven female producer in our program. Their mating to Duracell adds best 1% \$Maternal Value and \$Weaning Value so if you have the winning bid – take all the heifer pregnancies. Or, if you retain ownership and want to take advantage of Duracell's best 5% Marbling – take the bull pregnancies and get paid for more PRIME.*

# LEGACY BRED HEIFER OFFERING

It is an honor and a privilege for Claudia and I to offer Choice of our two best Registered Polled Hereford Bred Heifers from this year's crop in James Bennett's memory. 100% of the proceeds from this offering will be donated to the Hereford Youth Foundation. These pedigrees are wholly Knoll Crest Farm genetics. James was my close friend. With zero recognition of the thirty years between us, he celebrated my successes, was concerned over my challenges, and without failure offered wise counsel for the next step. The knowledge that his counsel will ring in my ears for the rest of my days is an awesome gift from a great man.

James Bennett and Thomas Tucker  
at our 2018 Sale

*Half-sisters to the Colonel daughters sold back at Lot 12. These are bred to Identified 2118 who ranks in the top 25% of Angus for 12 traits and balances the economic indices with a 2% rank for \$Maternal, 10% for \$Weaning, 15% for \$Beef and 4% for \$Combined Value.*

***Just like our prior sales,  
We'll conduct our "gentleman's  
auction" just in the sale barn  
where the heifers are penned.  
It is a little lower stress and  
slower paced than  
the typical auction.***

# Got Fescue?

*No problem, So do we. In fact, these heifers represent over 10 generations of selection for cattle that shed their hair, breed on time, and raise a marketable calf with fescue pastures as a primary forage source.*

Lot 24		Description

WHS Fireball 4I (AN)		216	87	22	16	-2.1	80	148	1.94	.66	36	11	14

*Lot 25 features two half-sisters to the F907 daughters that sold back at Lot 14 and two half-sisters to the Xtreme daughters that sold in Lot 15. All four of them are bred to WHS Fireball 41, who like his "old man" delivers "off-the-charts" marbling and single digit ranks for \$Weaning Value, \$Grid Value, \$Beef Value and \$Combined Value.*

Lot 26		Description											
		2 Black SimAngus Bred Heifers											
ID	Sire	Reg. No.	Service Sire				Reg. No.	Due Date	Fetal Sex

WHS Fireball 4 I (AN)		216	87	22	16	-2.1	80	148	1.94	.66	36	11	10

*Here's the half-sisters to the F-1 Gelbvieh x Red Angus heifers that sold back at Lot 9. We didn't leave anything to chance when mating these girls, we used WHS Fireball 41 who combines Best 2 % calving ease with the heaviest 10% yearling weight and the top 1% Marbling.*

*Jill Comstock was behind the camera for this picture of her dad and Bill evaluating the Red Balancer herd back in 2012 when the Red Angus Magazine ran a feature article on Tucker Family Farms...*

*Fast forward 12 years and Jill (now Jill C. Meriwether) is one of Charlottesville's leading wedding and family photographers, we've made our red Balancer herd even better, and amazingly Bill and Greg haven't aged a bit.*

*Tucker Family Farms sale veterans know to stay till the very last heifer sells. Here we are over 100 head deep in the offering and we have the half-sisters to the good Feedlot heifers that sold back at Lot 7. These are bred to maximize calf value thanks to Fireball's incredible Marbling EPD which fuels his top 1% \$Grid Value, 2% \$Beef Value, and \$Combined Value.*

Lot 31		Description												
		3 Red Balancers

WHS Thedford 116K		206	98	26	12	-.5	93	169	1.09	.71	38	14.1	12

*If you are building a red cow herd, you'll want as many of these Extra Profit daughters as you can get your hands on. The hills of Jane Lew, WV are covered with sisters to Extra Profit at Dan Stickel's Cedar Hill Farm; Dan tells us these females just stay in the herd because they breed, raise marketable calves and maintain their body condition. Their mating to Thedford is designed to make even more great females thanks to his Top 1% \$Maternal Value.*

Lot 33		Description											
		1 Red Angus Bred Heifer
