FERTILE MYRTLES: Let's face it: She has to breed, or she is gone. Developing heifers is expensive and time consuming. Fertile females are necessary. For 29 years we have selected for highly fertile females. It is our number one criteria. We calve for 45 days and cull every cow or heifer that falls out of that time frame.

CALVING EASE: We range-calve our cows. We do not want calving difficulties. We have been selective in our bulls for decades and we rarely have any calving issues. At Powder River Angus, calving ease does not mean low birth weight. Calving ease is acquired through selecting proven bulls and bulls with a phenotype suited for easy calving: small heads, long necks and spines, shoulders set in, etc.

EASY KEEPING: This can be a double-edged sword. We want our cows to keep their flesh, but not at the expense of her calf. A fat cow with a "bummy-looking" calf is not profitable. A cow in good condition, who produces a heavy calf, breeds back in time, and regains condition after weaning is a profitable cow.

CAN TRAVEL: Soundness and foot quality are huge problems in the Angus breed – especially foot quality. We actively select and breed for foot and soundness traits.

HIGHLY EFFICIENT: Feed costs are certainly becoming a huge portion of operating in the cattle industry. We have always bred for cattle that are moderate in frame size with the ability to gain either on grass or in the feedlot at an optimal and sustainable level of production. Angus cattle are phenomenal at being efficient, good doing cattle and along with our environment it becomes an even better package. We can provide genetics that excel in a multitude of environments.

PERFORMANCE MINDED: When we get right down to it, we need our cows to raise soggy, pound yielding calves. Through generations of breeding, we have selected for these girls. Our dams must reach a benchmark in several traits. We cull cows that are not achieving this benchmark. Our benchmark is probably higher than most commercial programs, but we feel it needs to be for us to provide the quality genetics our customers deserve.

BULLS BORN *and* RAISED WHERE CORN DON'T GROW!

(In order to do that, we've got to focus on the mama cow and develop bulls for fertility, longevity and soundness.)

Through our environment, alone, we raise cattle with the traits that will supply an economical beef animal. With decades of breeding and choice of exceptional females we have developed a program that will put money in your pockets. The Angus cow is the most beneficial and profitable cow out there.

Combine that with a program committed to developing bulls in a responsible manner, you are on a track to success. Our bulls are not fed silage or a "hot" ration. We develop our bulls on a high fiber pellet and long stem grass hay. Our bulls will be solid and ready to go to work without the dreaded melt-off of fat.

POWDER RIVER ANGUS BULLS ARE GROWN OUT - NOT FED OUT.

Bulls born *and* raised

ACCOMMODATIONS: Hampton Inn, Buffalo..... 307-684-8899

Comfort Inn, Buffalo 307-684-9564

TERMS AND CONDITIONS: Cattle will sell under the Standard Terms and Conditions as recommended by the American Angus Association.

RETAINED INTEREST: The breeder will be retaining a one-third revenue sharing interest in every bull selling in the sale. Full possession and salvage value sells on all bulls.

SUPPLEMENTAL INFORMATION: Scrotal measurements and weights of the bulls will be available before sale day. Announcements from the auction block take precedence over catalog information.

WINTERING: All bulls will be wintered free of charge until April 1, 2023 at Powder River Angus in Spotted Horse and delivery will take place from there. If you choose to leave your bulls past April 1st, feeding arrangements can be made at the buyers expense.

LIABILITY: All persons who attend the sale do so at their own risk. Powder River Angus and Buffalo Livestock Marketing assumes no liability, legal or otherwise, for any accidents which may occur.

FERTILITY: The bulls will all be fertility tested by Dr. Allen Gotfredson, Flying A Animal Health, prior to delivery.

TRUCKING: Delivery of all bulls is free of charge in Wyoming and adjoining states. Bull deliveries will begin around March 15. We will give \$100 back per customer, if you pick your bull(s) up from our ranch between March 28-April 7, 2023. Arrangements must be made before pick-up.

GUARANTEE: Powder River Angus will guarantee their bulls 100% against injury due to breeding in a 60 day breeding season. Season ends September 1. Injury needs to be verified by a licensed veterinarian. Powder River Angus will either give credit to the buyer or replace injured bull(s). Death of bull by natural causes of lightning, drowning or hit on road can usually be covered by most ranch insurances. We strongly encourage you to visit with your Ranch Insurance agent. There are also companies that provide mortality insurance. We can assist you in finding this type of insurance if interested.

CALVING-EASE SCORES: Each bull in the sale has been assigned a calving ease score. This is our best estimate based on a number of factors including pedigree, birth weight and our knowledge of the sire and dam. 4-stars (****) designates a sleep-all-night heifer bull. 2-3 star bulls would work on larger framed heifers and 1-star designates a cow bull. All buyers should take into account their own program when considering these recommendations. Please talk to us prior to the sale if you have questions about the scores.

HERD HEALTH: All cattle sell with proper health papers for interstate shipment. A rigid herd health program is followed. All cattle have been calf hood vaccinated with 7-way Somnus at branding and at weaning along with IBR, BVD, BRSV, Pasturella and a Dectomax Pour On. Bulls also received two shots of Fusoguard to help protect against footrot.

ABSENTEE BIDDING: If you are unable to attend but would still like to participate in the sale we have several different options. You can contact the breeder, auctioneer or representatives prior to the sale to discuss your needs. You may also view the videos and bid online during the sale at www.dvauction.com

3	2.0	72	115	28	0.65	2	70	92	32	125

A homeraised bull we used back on the herd. We turned him into our 3 year old cows and he bred almost all of the 85 head. He had an awesome look to him and it's a shame we didn't get a good picture of him. The Motive daughters are proving to be some of the best cows. They have longevity and are good milking. His dam goes back to the old "Tom" bull we purchased from Paintrock Angus Ranch years ago.

Remembering
Russ

Russ Green • 1949-2023

We lost a great friend, mentor and huge supporter of our program this year. Russ Green AI'd our cows and heifers for 18 years. We will miss this larger-than-life man, his witty sayings and his presence. We will always cherish the great memories we have of him, the countless hours in the AI pens and the endless games of pitch that we played at the kitchen table.

BULLS BORN and RAISED WHERE CORN DON'T GROW!

(In order to do that, we have to focus on the mama cow and develop bulls for fertility, longevity and soundness.)

We develop the bulls on free-choice long stem grass hay and a set amount of a high fiber pellet we purchase from Hubbard Feeds. The ration is designed for the bulls to gain 2.8 – 3.0 pounds a day. We feel at this rate the bulls can exhibit their genetic potential, but not at the expense of fertility, longevity and soundness. It is important to note the bulls do not layer on fat. They exhibit skeletal and muscular growth and will have a "hard" look to them not a, " fat with all the holes poked-out look!" What you see is what you get. No surprises and no huge melt-off of fat as they go into the breeding season. **Our customers report back about their bulls lasting well over 6 years. Making their bull investment return a profit for years.**

FEED-EFFICIENT GENETICS THAT DO WELL ON THE RAIL

We have retained ownership of our steer calves and the kill data we have received back on our steer calves tells us we are providing genetics that do well not only on the rail but also in feed efficiency. Our calves finish quickly which is very indicative of profitability. They also grade and yield extremely well. The pandemic caused our steers to have to be fed an additional 45 days. Our steers just kept gaining and had the frame and genetic ability to keep adding meat. They didn't stall out and we had incredible grades of carcass.

Dr Matt & Amy Vercimak

HERD HEALTH IN VARIED ENVIRONMENTS

Working with Neal and Amanda in managing their cow herd's health has given me an insight into the direction and focus that they have taken. They strive to introduce new genetics with intent to continually improve their herd and are offering seed stock that will work in a wide variety of programs. **These animals start life out with as good of an advantage as they can from a nutritional, mineral and disease prevention standpoint and that standard is maintained throughout the time that they are on the ranch.** I think that most ranchers would be surprised at the level of time, energy and financial investment that goes into the production of the animals that you see here today.

- Dr Matt Vercimak, Stockmans Veterinary Services

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service! Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction - a DV representative will notify you when you are approved.
3. Tune in for the sale and make your purchases!

After the sale, contact Powder River Angus to arrange transportation and payment. High speed internet is required for successful bidding - be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding: If you can't make time to watch the sale, register a proxy bid and DVAuction represent your bid while you're away. Look for the "proxy bid" tab on the auction listing and fill in your maximum bids. They'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. DVAuction support can always be reached at (402) 474-5557.

RETURN SERVICE REQUESTED

Superior females *raise* superior bulls.

Through our environment, alone, we raise cattle with the traits that will supply an economical beef animal. With decades of breeding and choice of exceptional females we have developed a program that will put money in your pockets.

The Angus cow is the most beneficial and profitable cow out there.

Combine that with a program committed to developing bulls in a responsible manner, you are on a track to success. Our bulls are not fed silage or a "hot" ration. We develop our bulls on a high fiber pellet and long stem grass hay. Our bulls will be solid and ready to go to work without the dreaded melt-off of fat.

POWDER RIVER ANGUS BULLS ARE GROWN OUT - NOT FED OUT.
