

Hand-Picked
for the Future

Online Elite Angus Heifer Sale
With Special Guest, MaxLock Cattle Company, Savoy, TX
Bidding closes *March 6, 2025* at 7:00 pm CST

Welcome Friends,

It is our honor to invite you to view the 2025 edition of our "Hand-Picked for the Future" Angus Female Sale. Bidding will open this year on Wednesday, March 5th at 5 pm, and will close on Thursday, March 6th at 7 pm. The sale will feature a Race Horse style close and bidding will be extended for 5 minutes to ensure everyone has the opportunity to own the individual of their choice.

We're especially pleased this year to be joined by our friends, neighbors and partners from Max-Lock Cattle Company in nearby Savoy, Texas. Clint Whitlock and Cody Maxwell are students of the Angus breed and have built their program by hand-picking some important females from our program. More recently, they have purchased our entire Spring calving cow herd.

We believe Profit begins in the cow herd. While our genetics are highly competitive in terms of payweight, quality grade and feed efficiency, we only realize those benefits after the cows have gotten pregnant, calved unassisted, raised a valuable calf and rebred to do it all again in 365 days. Additionally, those cows need to be pleasant for us to work around, not need any excess supplementation and have udder and foot structure that doesn't require extra labor or management. This sale features our youngest and freshest genetics, and they've had our one more generation of our "Maternal Matters" strategy applied in their selection.

Since this is an online sale, we won't have any type of organized gathering at Jones Ranch on sale day, however, you may come by on sale day to view the cattle, or any day before, just be sure to call ahead to ensure we're here. As in our previous sales, online bidding will be available through DV Auction, and you are welcome to call any of the buyer representatives listed on page 3, if you have questions or need someone to look at these females on your behalf. We look forward to your questions about the offering and we welcome your visit if you'd like to see for yourself.

Jones Ranch Sale Catalog Data:

Sale Lot #

Registered Name
Birth Date, Tattoo (ID), Registration

Angus Maternal Plus logo
(see Maternal Plus Explanation on the opposite page)

CAB "Targeting the Brand Logo" - identifies registered Angus that exceed breed average for Marbling & Angus Grid Value Index (\$G).

American Angus EPDs and associated percentile ranks for: Calving Ease Direct, Birth Wt, Weaning Wt, Yearling Weight, Milk, Heifer Pregnanc, Scrotal Circumference Marbling and RibEye Area.
(% Rank shown below the associated EPD)

Maternal Value (\$M) Angus index that includes all the traits that make up both \$Maternal and \$Beef (% shown rank below).

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning.

Grid Value (\$G) expressed in dollars per carcass, predicts profitability differences in progeny due to genetics for carcass grid merit. Includes: MARB, RE, CW and FAT.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits

Combined Value (\$C) Angus index that includes all the traits that make up both \$Maternal and \$Beef (% shown rank below).

Feed:Gain (F:G) EPD
EPD that predicts differences in the amount of feed an animal's progeny will consume to produce one pound of gain.

Fertility EPD - Developed by the \$Profit team and predicts differences in the number of calves produced by an individual's daughters by the time they are 8-yr's-old.

\$Feeder - Index developed by the \$Profit team that predicts differences in profitability due to traits that impact profitability during the post-weaning phase.

\$Profit - Revenue Traits:

- Calving Ease = More Calves
- Weaning & Yearling EPD = More pay-weight
- Fertility = more calves and fewer open cows
- Carcass Weight = worth more up to 1050 lbs.
- Marbling = valued based on grid premiums
- Ribeye area = value as impacts Yield Grade
- % Retail Product = more yield is more meat

\$Profit - Cost Traits:

- Cow Mature Size = in general, bigger eats more
- Cow intake = increased feed intake/increased costs
- Feed Efficiency = cost of Gain
- Carcass Weight = worth less over 1050 lbs.
- Marbling = valued based on grid premiums

\$Ranch - Index developed by the \$Profit team that predicts profitability for producers who sell calves at weaning.

ANGUS
THE BUSINESS BREED

- Gratitude Daughters -

Lot 1 - JR Ms Blackcap 1394M

- When our ads say, "Maternal Matters" this leadoff heifer and her supporting cow family is what we're talking about.
- We'd like 100 more just like her type and kind and her profit indexes support that with elite predictions for \$M, \$Ranch and Fertility.
- Her EPD profile also predicts problem free cattle improvements predicted for foot structure, docility, PAP, hair shedding, maternal calving ease, moderate mature cow size, fertility and better than 1% Feed Efficiency.
- Sells open and ready to breed.

Lot 2 - JR Ms Blackclass 1381M

- Lot 2 is a spitting image of her paternal grandam at the same age, and now as a 6-year-old, Gratitude's dam, 951G, is as sound footed, good uddered, and easy fleshing as we can make one.
- For the majority of our ranch customers, profit is won or lost in the cow herd. Lot 2 ensures success in the cow/calf sector with superior predictions for heifer pregnancy, maternal calving ease, \$M, \$W, and Fertility. Plus she predicts to improve foot quality, docility and hair shedding.
- Sells open and ready to breed.

- Lots 5-10 - Spring Open Yearling Heifers -

- Nothing improves profitability like improved stocking rate and weaning percentage. With Lot 5's combination of calving ease, heifer pregnancy, maternal calving ease and moderate mature size your customers will run more cows per given land resource, have better breed up and bring a higher percentage to the weaning pen. Her dam maintains a 368-day calving interval over 3 calves.
- Sells open and ready to breed.

Lot 15 - JR Ms Blackcap 1340L

- Here's the half-sister to the leadoff Angus bull at R.A. Brown Ranch's 10th Annual March sale which takes place 6 days later in Throckmorton, Texas.
- Lot 15 has one of the highest \$C values in the entire offering and that's because few can run with her exceptional combination of \$M and \$B. She'll add muscularity without losing quality grade and pay-weight without increasing mature cow size.
- Due to calve 9/21/25 to Brown JR High Caliber 8416L.

- Lots 16-19 - Fall Calving Bred Heifers -

Lot 16 - JR Ms Pride 1334L

- If you're not used to looking at 100+ lb. weaning weight EPDs, this is what one looks like! Better yet, all that top 1% payweight comes in the form of best 10% ranks for Marbling, \$G and \$F.
- Lot 16's dam is one of the most "picture-perfect" daughters of Mill Brae Success ever to graze in Telephone, Texas.
- Due to calve 9/21/25 to Brown JR High Caliber 8416L.

Lot 17 - JR Ms Balnorma 1330L

- Lot 17 is a long-hipped, sweet fronted Remington daughter that comes with extra depth of body and tremendous shaped in her lower rib.
- This female's EPD tabulation predicts doing more with less. Her best 25% dry matter intake (DMI) contributes to her better than 1% Feed Efficiency (F:G) EPD. Her responsible mature size and weight predictions couple with her lower intake and greater efficiency to suggest improved stocking rates and more pounds weaned per acre.
- Due to calve 9/20/25 to Brown JR Gratitude 9690J.

- Lots 20-24 - Spring Open Yearling Heifers -

Lot 20 - MXLK Ms Gratitude 4021M

- Back into the open yearling heifers, these come from MaxLock Cattle Company, but you'll find they fit right in with the Jones Ranch with similar sire selections and many of their dams being hand-picked from the top-end Jones Ranch offerings over the past few years.
- Lot 20 fits right with the Gratitude daughters that started this sale and she comes from a cow that's been at the top of both the Jones Ranch and Maxlock herds. 708E has nineteen natural and ET calves to her credit. Her average progeny ratios are: 118 weaning, 106 yearling, 105 IMF and 105 REA.
- Sells open and ready to breed.

Lot 21 - MXLK Ms High Security 4009M

- Here's the first daughter of High Security to sell and this one is out of one the most productive and prolific cow families to ever come out of Jones Ranch. Her maternal grandam, 863F maintains a 105 average progeny weaning ratio, and her great maternal grandam, 212Z, maintained an average progeny weaning ratio of 113.
- If like us, you believe Profit starts in the cow herd, you'll appreciate the amazing profit indexes that come with Lot 21. Best of breed ranks for \$M, \$W and \$Profit, she predicts to improve fertility, feed efficiency, docility and foot structure. Here's one to build a cow herd around, all you have to do is own her.
- Sells open and ready to breed.

- Cow Families to Build your Herd Around -
