Cattle with Something Extra!

2025 Professional Cattlemen's Bull & Female Sale – Cattle with Something EXTRA!

Dear Friends and Valued Customers,

Welcome to the ninth annual Hunt's H+ Brangus Bull & Female Sale. We are proud to offer you the deepest and most powerful set of bulls and heifers we've ever developed. You will find multiple sons of breed leading sires such as DDD Legacy 103B7, TCB Catawba Warrior R532, MC Something Special 889Y2, and QVF Never Surrender 23G19. We also have sons of other power bulls such as DMR Kingdom, VF Le Mans, Dutton, Final Time, Big Mac, and SAV Final Answer. Sires C010, H008, H058, and E775 all carry the H+ brand and are bulls bred and developed here on our farm. We are proud to offer their progeny as proof of the genetic concepts we teach and practice.

We offer you genetically proven bulls by adhering to a consistent breeding plan. We ignore the "bull of the year" and use only proven AI bulls with their best sons used natural service. This produces a super consistent cowherd and quality that results in profitable genetics for you. The bulls are raised and developed after weaning on forage and a Purina Accu-Ration feed that aims for proper development and expression of genetic potential, not maximal gain. They averaged 3.58 lbs. of gain per day for the test period as a group. We collect and report all relevant data on EVERY bull and heifer born on the farm through yearling. We don't adjust contemporary groups or use single contemporary animals to "protect" EPDs. We never play games with the numbers. Our grandfather taught us that, "A good name is more desirable than great riches; to be esteemed is better than silver or gold." Proverbs 22:1. The information we provide and our reputation stand behind each animal that wears our brand!

We believe that profitable cows have live calves, long productive lives, raise calves to weaning & breed back every year. They thrive in their environment with minimal inputs. We manage our herd according to these beliefs. Your bulls come from real working cows! Every animal was developed on a forage-based gain test, checked for known genetic conditions, passed an exhaustive veterinarian administered Breeding Soundness Exam and trich test, has a carcass ultra-sound by a certified technician which is lab verified, has genomic enhanced EPDs and parentage verification. We gather this information and report it ethically in order to produce a superior product for you! We call that "something extra." We are committed to your success in the cattle business. The + at the end of our brand, equals \$ in your pocket on sale day! So, in our way of doing math, H+ = \$ in your wallet!!! That is "something extra" for you!

We bring you this sale with the help of genetic cooperators, Terry and TJ Bunch at Bunch Brangus, Jake Daton at Twisted J Brangus, Thomas Dukes of Lightning Ridge Ranch, and our family, Michael, Wesley, Seth, and Jamey Hunt. Consigners of commercial heifers are JJ Lee, Jeremy Reagan, Bunch Brangus, Jake Dalton, and Tyler Leamer. Additional thanks go to, Auctioneer Luke Mobley, Calhoun Stockyard owner and management, Adam Williams and family, Seth Stowers DVM of Hillside Veterinary Practice, and Cow Camp Promotions, Andrew Wilfong Videography, and Darren Richmond Photography. Our father, Michael Hunt, serves as our Senior Herdsman and Blake Garland is the Junior Herdsman. Additional help this year came from a variety of friends including; Ross Wyatt, Blaiz Hardin, Carson Degraan, Dakota Hight, Ian Garland and Robbie Arnold!

LIVE BROADCAST AND ONLINE BIDDING

LiveAuctions.TV will carry the sale and you may register with them and follow the sale live and bid via the internet.
LiveAuctions.TV..... 682-816-4900

WAYS TO BID

1. Attend the sale
2. LiveAuctions.TV
3. Call us and arrange to have a someone relay your bid live at the auction.
4. Call us to arrange to have a buyer-representative bid for you. (Your budget, your specification, your satisfaction guaranteed)

CLAIMS FOR ADJUSTMENTS

Claims for adjustment must be made in writing to the seller within 6 (six) months of the sale date. All settlements will be made with credit at a future sale and this will, in any and all cases, be deemed full satisfaction and settlement.

LIABILITY

All persons attending this sale do so at their own risk. Neither Hunt's Brangus nor anyone connected with management of the sale assume liability, legally or otherwise, for safety of buildings or premises, or for behavior of animals.

COMPLIMENTARY LUNCH

A complimentary lunch will be served from 10:00-11:30

TRUCKING

FREE HAULING anywhere on bull purchases by any individual buyer of \$15,000 or more. This can be one or multiple bulls. These animals must all be registered to the same person.

Additionally, we guarantee a maximum trucking cost of \$500 per bull within the states of GA, NC, SC, AL, FL, and TN if arrangements are made with us prior to the sale. For other states we will be glad to assist with transportation and will get your bull delivered as economically as possible.

FREE HAULING ON BULLS TO:

Free hauling will be available to the Westminster, South Carolina area.

2025 Professional Cattlemen's Bull & Female Sale – Cattle with Something EXTRA!

RESERVE SALE POLICY

In order for us to offer you quality bulls at auction year after year, we must insure that we recover the costs of developing quality bulls. We pledge to offer you a quality animal in a fair auction environment. We do this in a straightforward manner by letting you know our base price up front.

All bulls will be offered for auction with a minimum sale price of \$3,000. The high bidder as determined by the auctioneer will be the purchaser of the bull. If any bulls are not sold, the will be available for no less than \$3,250 immediately following the auction and will not be sold for less than that price private treaty at any time.

RETAINED-INTEREST BULLS

We reserve the right to retain a 50% revenue sharing semen interest on any bull sold. Bulls are in your possession and under your control for natural service and you get 100% of the salvage value. We will continue to own half interest in bulls for the purpose of collecting and marketing semen, as well as using semen in our herds. While it is unlikely large amounts of semen will be collected or sold for many bulls, we need that as an option on bulls sold. As a buyer and at your option, you can also have a 50% revenue sharing semen interest and participate in revenue from semen sales. We have developed a Bull Partnership Agreement spelling out further details. Buying a retained-interest bull obligates you to that agreement only for semen collection and sales. To avoid any misunderstandings, if you have any questions at all, please ask. If you chose not to be involved with semen sales, we still reserve the right to collect and market semen on any retained interest bull.

The sale order for all animals will be provided as part of the sale supplement sheet and will be available on the Friday evening before the sale.

CALVING-EASE BULLS

Over the years we have become more and more conservative on which bulls get **flagged as "Calving-Ease Bulls."** We have adopted the philosophy that it is better for us to have stricter guidelines than for you to be sorry at calving time. Obviously there are no guarantees for preventing difficult births in heifers.

Even the most proven "Calving-Ease Bulls" of any breed will sire a large calf every so often. However, this information is meant to serve as a guide for managing risk of calving difficulty in your first-calf females. Our goal is to help you eliminate heifer calving problems to the best of our ability.

REMEMBER: Compare Brangus to Brangus – No across-breed EPD comparisons can be made! Bulls indicated by the calving-ease flag symbol in their data block are considered to be low-risk bulls for calving difficulty.

BUT, let's get real on calving ease! Our "calving-ease bulls" are meant to be used to breed virgin heifers such that they will have little or no calving problems with their first calf. The other bulls in our catalog are very appropriate for use on cows that have already had at least one calf. There are almost no bulls in the entire Brangus breed that cannot be used on mature cows and have no calving difficulties. In fact, because the correlation with size at birth and growth is extremely high, you would be losing growth (and weaning weight) if you use our designated "calving-ease bulls" on mature cows.

In general, always use our bulls flagged as "Calving-Ease Bulls" on virgin heifers for their first calf and use the other bulls on any mature cows in your herd. On the other hand, a "calving-ease bull" to breed virgin heifers can be a God send.

GENOMIC-ENHANCED EPDS/

SIRE PARENTAGE VERIFIED

A 100k bovine DNA test provides significantly more accurate genetic information compared to lower density tests, allowing cattle breeders to make highly informed decisions regarding breeding selection by identifying animals with superior traits for desired characteristics, ultimately leading to improved herd performance and profitability through precise genetic selection.

All bulls had a 100K Genomic Test and all heifers had a 30K Genomic Test to enhance the accuracy of EPDs. They are also DNA parent verified.

SUPERIOR HEALTH

All registered animals have received three rounds of Ultrabac 7 and Virashield 6 + v15 and boosted with Staybred at yearling. Animals have tested negative for PI-BVD.

Health Papers (Certificate of Veterinary Inspection) will be provided at no charge to buyers in order to allow shipment to Anywhere, USA.

TRENT THOMASON AGRICULTURAL SCHOLARSHIP

The Trent Thomason Agricultural Scholarship was established by his family in his memory to help continue his legacy in the field of agriculture. His smile, friendship, support of our community schools and life-long work in agriculture will continue to be remembered and will grow into the future. Students from our three local high schools receive scholarships each year from these funds. These graduates desire to further their education in the field of agriculture.

In honor of Trent's memory and in cooperation with the Thomason family's vision, we at Hunt's Brangus pledge to make a donation from the proceeds of this year's sale toward the Trent Thomason Scholarship Fund. Please join us in finding ways to invest in the next generation of farmers.

Sincerely, The Hunt Brangus Family

2025 Professional Cattlemen's Bull & Female Sale – Cattle with Something EXTRA!

Bulls designated with the “Calving-ease Flag” are felt to be Low-Risk Bulls for calving difficulty and are suitable for use on first-calf females.

1. Calving Ease Direct EPD – is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease which a sire's calves will be born when he is bred to first-calf heifers.
2. Birth weight EPD – predicts calf size and calving ease.
3. Weaning weight EPD – predicts preweaning growth potential.
4. Yearling weight EPD – predicts overall growth potential and post-weaning gain.
5. Milk EPD – predicts the maternal contribution a bull passes to his daughters for milk production and mothering ability.
6. Total maternal EPD – predicts the overall weaning weight of calves from daughters of a bull due to growth potential as well as milk production and mothering ability.
7. Calving Ease Maternal – is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.
8. Scrotal circumference EPD – predicts testicle size.
9. Ribeye area EPD – predicts muscling.
10. Percent intramuscular fat EPD – predicts marbling and quality grade.
11. Fat EPD – predicts external fat thickness and yield grade.
12. Heifer Pregnancy – Measure of the probability that a cow will have a calf by 2 years old.
13. Stayability – Measure of the probability that a cow will still be in the herd at 6 years old.

14. Mature Cow Weight – Prediction of the cow's weight as a 5 year old.
15. To make it easier to evaluate EPDs, the percentile ranking is shown below each individual EPD. This is a great way to understand where the individual ranks in the breed for that particular EPD. For example, where it shows “10%,” this means that particular EPD value is in the highest, or TOP 10%, of all non-parent bulls in the entire breed. (A 10% for BW, however, means lowest, or lightest.)
16. Actual birth weight within 24 hours of birth.
17. Yearling scrotal circumference (testicle size measured in centimeters) adjusted to 365 days of age.
18. Terminal Index – A decision tool for selection of animals with long-term end-product improvement as the goal.
19. Terminal Index Percentile Ranking
20. Fertility Index – A decision tool for selection of animals that will improve long-term reproductivity as the goal.
21. Fertility Index Percentile Ranking
22. Artificial Insemination or Natural Service – Indicates the manner in which this animal was conceived.

♦ Not(s):
 • g Denotes Genomic-Enhanced EPD Result
 • Accuracy of 'P' denotes Pedigree Estimate EPD

Conventional Semen is available at \$50 per straw with a minimum order of 10 units.

Contact Hunt's H+ Brangus to place orders, 770-548-7950.

COW CAMP

Here is a herd-changing AI option:

- **Balance:** Unsurpassed quality across multiple economically relevant traits
- **Longevity:** Bred cows natural service into his 13th year!
- **Consistency:** High accuracy epds proven across many registered & commercial cow herds and in the show ring.
- **15 EPDs** in top 45% of the breed.
- **Superior REA , Fertility Index, Stayability, NC, Total Maternal, Terminal Index, YW, BB, IMF, Heifer Pregnancy and SC.**
