All cattle sell under the Suggested Terms and Conditions of the American Simmental Association and are available www.simmental.org

•Texas is officially classified as free of Brucellosis & TB.

Liability

All persons who attend the sale do so at their own risk. Neither the consignors nor the management assume liability legal or otherwise, for any accident that may occur.

Estes Ranch

was establish in 1897 on the Texas/ Oklahoma state line near the communities of Shinnery, Texas and Madge, Oklahoma.

The ranch started out with commercial Herefords. Then in the 60's we added Angus bulls to the operation for more hybrid vigor. Next, in 1978 we bought Simmental bulls to increase growth and maternal performance and started building our Simmental herd from the 1/2 blood cows. In 1981 the ranch purchased some purebred Simmental cows. Then in 1985 we purchased two 1/4 Simmental 3/4 Brahman bulls to start our Simbrah herd. Today we run 100 Fleckvieh and purebred Simmental cows and over 300 registered and commercial Simbrah cows. Throughout this period we have focused on developing a efficient low maintenance cow with excellent udder quality as well as a great set of feet and legs to cover rough terrain. Additionally we have been collecting carcass data on our calves for over 20 years. We have proudly increased our calves from 60% choice to 96% or better in 2022.

The cattle you see here today are a result of 5 generations genetic selection to produce the best cattle possible and will be a great addition to anyone's herd.

Wild Track Cattle

was established in 2008 in East Texas around the town of Henderson, Texas.

While our time in the actual production phase is short, we have produced a variety of high quality cattle. Our history in the Simmental cattle industry begins in 1985 when my Grandfather started purchasing Simmental bulls to run on his crossbred cows to improve weaning weights and to produce females to be kept in the herd. At Wild Track Cattle we try to Produce Simmental and Simmental influenced cattle that strive in all aspects of the world, as we run Simmental and Brahman bulls on our Registered and Commercial Cattle. We run 75 registered cattle and 100+ commercial cows. Majority of our Registered Simmental cattle go back to Buzzard Hollow Ranch and Estes Ranch Genetics.

We strive to produce cattle that have the traits that we think are the most important. We want cattle that are fertile, easy keeping and can produce in the pasture and feedlot.

If you are looking for a FLECKVIEH female that has the quality and numbers to show or become your next Donor, Jancis fits that bill. Sired by the Southseven polled prefecton, the Starwest Pol Blueprint son that worked at Jenson Simmental in Kansas, added the polled gene and a tremendous set of numbers to Jancis pedigree, Jancis dam is a Little Creek Xpress out of the legendary little creek Mona, a Hackenburg daughter out of a Argoone daughter. A pedigree that reads whoses who in the Fleckvieh breed. Her Dam, her grand dam and maternal Grand dams offspring all work in the SOT Program. Jancis sells open, you can drive the wheels off your truck to find a female with a proven pedigree like hers.

Jancy is the first of several BHR Ebele E511E daughters in the sale, and like lot 1 she is also out of an own daughter of Siegfried. This heifer has excellent potential and a pedigree that speaks for itself with cow families like BHR Ashante, DDD Ms Salomon, and Lady Siegfried A377E. This females aunt was sold for \$10,000 in the 2nd annual Back To Grass sale. You simply can't go wrong with this polled flashy female. Don't miss her!

WT/JP Miss Jelly is a FullBlood Female sired by Estes Drake. She is a Moderate Framed, long spined female that will add length and durability to any herd. This double goggled eye girl has a pedigree that traces back to bulls such as Sunny Valley Sargent, BHR Oakes, DDD Broadway, BHR Draco, Bar 5 Harrah. SELLS OPEN

Joni is the only daughter in the sale out of the Cowboy bull we raised and Todd Smith now has making F1 Simbrahs. Like all Cowboy daughters, she has a ton of natural rib shape in a moderate thick package. Not to mention she is a BHR Eira E043e granddaughter. I'm really a believer in building around cow families and Cowboys dam BHR Florence X310 was one of my most productive females hands down.

This is the first of two Bar 5 Hexagon daughters. I used him for the first time last year and he sure didn't disappoint. J21 is a hard one to part with because she has brood cow written all over her. Jexagon stands on a ton of bone and has more natural thickness and power than any other heifer in my offering. She is out of an Xpress daughter as an added bonus and is a non dilutor. She will make some friends sale day!

Jolene is a dark red thick made, moderate, non dilutor female that has always been one of my favorites. Her dam is Bar 5 Harmony, a cow I imported as a heifer from Canada. When she was delivered, Fred Schuetze told me that heifer is going to make a donor and she did just that. Harmony is the dam of Wild Track Cattles top herd bull Estes Fabio, Josh Gardner's and Compton's bull Estes Hero and this excellent female. Don't miss Jolene! She will be fat year around and should be extremely fertile as her mother has never been serviced any other way, but first time AI in her life. I will also mention that her sire was imported from Bar 5 making this a rare opportunity to purchase a 100% Bar 5 bred animal.

PE Sire: JS MT Hammer H243 ASA#3769407 DT: 2/28/2022 4/1/2022

The more I am around this heifer I wonder why I am selling her. I sold her sire, Fonz, (a Maximus x 65 son) before collecting semen on him and she is one of only a few heifers that I have out of him. Look at those EPD's. Bred to Hammer. He is a polled Metro son out of a Simmentals of Texas donor that I raised. Horned 100% Fleckvieh.

Hasel's dam was purchased in Canada from Spruceburn Simmental, to add some outcross genetics for SOT Program. She was bred BEE DUCATI and calves at SOT Hasel. Hasel is a deep ribbed, strong topped, sound footed with excellent EPDs Straight across the board in top 5% for milk, top 20% for MCE, top 10% MWW, 30% API. Hasel sells bred to Saint John Gattton, the super calving easy Polled FullBlood bull purchased from Chad Bailey. This will make a super cow with great numbers and the calf possibly could be Polled.

Handy is an eye catching female that is out of Daisy's Cool Dude, one of the top Marbling bulls in the Simbrah breed. She is a full sister to the heifer sold to at Circle E in last year's sale. She sell's bred to BHR Ebele E511e for a 3/4 Simmental 1/4 Brahman calf. You will see in lots 51 and 55, this cross really works!

H375 is a larger framed heifer with a lot of growth and color. She is sired by a 3S Mr. Big Sexy Magnum son that also traces to that Miss Lithe of NBI cow family. On the bottom side she is double breed PRR Cool Dude. This line breeding and focusing on cow families is what enabled us to build such good carcass traits in these Simbrah cattle. She sells bred to BHR Ebele E511E.

N40 Lady Janessa J108 combines the essentials of pedigree, performance, and phenotype of a future powerful producer. Janessa is deep ribbed and heavy boned with a feminine look. She also brings an interesting pedigree of new Brahman blood to the Simbrah breed. Janessa's sire is a combination of JDH Massai Manso 608/6 and a daughter of one of the most sought after bulls in the Brahman breed, JDH Charley's Jazz 946/1. Janessa's dam has already produced an outstanding herd sire N40 Mr. Farley F804, who is being used at Flying R Farms. If you are serious about breeding superior Simbrah cattle, then you must be the last one bidding on Janessa!

HELON'S dam, JS AD PNZUES D203 62, WAS RAISED BY STEVE JENSEN OF KANSAS AND MANY OF YOU SAW HER SELL IN MAY OF 2018; TO JIM ETHRIDGE AND LARRY THROGMORTON, AT THE BHR SALE. LITTLE DID I KNOW THAT I WOULD BE ABLE TO BUY THIS HOMO POLLED NON- DILUTOR COW AFTER I FLUSHED HER FOR LARRY AND JIM; BUT THAT HAPPENED IN MAY OF 2020; WHEN I PURCHASED THE ENTIRE HERD FROM JIM. IN THAT PURCHASE THERE WAS TWO EMBRYO PREGANCIES OUT OF D203 AND ANCHOR D RAPTOR. SOT HELON WAS ONE OF THOSE PREGANCIES AND SOT HAXTON H596E WAS THE OTHER. HELON IS AS DEEP SIDED AS YOU CAN FIND, WITH EXCELLENT RIB SHAPE, WIDE BASED, STRONG TOPPED, PACKED FULL OF RED MEAT, FEMININE FRONTED AND PROBABLY HOMO POLLED AS WELL AS BEING A NON- DILUTOR. IF YOU ARE A NUMBERS PERSON HOLD ONTO YOUR HAT WHEN YOU LLOK AT THESE: TOP 20% FOR CE, TOP 40% FOR BRTH, TOP 2% FOR WEANING, TOP 1% FOR YEARLING, TOP 1% FOR ADG, TOP 20% FOR MCE, TOP 15% FOR MILK, TOP 1% FOR MWW, TOP 40% FOR STAY, TOP 1% FOR CW, TOP 25% FOR REA, TOP 10% FOR API AND TOP 3% FOR TI. YES, THESE ARE CORRECT! SOT IS OFFERING, A FLUSH TO HELON, TO BE DONE AT SOT TO THE SIRE OF YOUR CHOICE AND SOT WILL MAKE AVAILEABLE SEMEN OUT OF SKYWEST POL HAVOC, CSA 1321598, WHOSE SEMEN WILL JUST AQUIRED FROM JASONRICH-MAC SIMMENTALS IN CANADA. HAVOC'S SEMEN SHOULD BE HERE IN APRIL. THE EMBRYOS CAN BE MADE EXPORTABLE IF SEMEN IS ACCEPTABLE TO YOUR PROTOCIL. HAVOC IS A PURE POWER SIRE AND IS HOMO POLLED AND A NON-DILUTOR. SOT GUARNTEES 6 VIEABLE, WITH A 50% CONSEPTION, EMBRYOS. THE PURCHASE PRICE WILL COVER FLUSHING, FREEZING. HEALTH PAPERS IF REQUIRED ARE AT THE EXPENSE OF THE PURCHASER AS WELL AS SHIPPING
