LUNCH - 12PM

SALE - 1 PM

## Welcome

to our annual Bull Sale and thank you for your interest in our program. We really are humbled and blessed with all of the support we have had over the years and would like you to know how deeply we appreciate your support and friendship.

We have been producing registered Angus since 1996; from a small start to a family operation with our customers as part of our extended family.

Our mission has always been to produce functional, balanced trait, no-problem cattle that work in our environment that are fertile, have good udders, are moderate framed, wide based with some bone and muscle that will yield an end product that meets the industry and consumer expectations.

This will be the most bulls we have offered and feel it is our most consistent and deepest quality that we have offered. A good group of the bulls should work on heifers.

We are optimistic about the cattle industry. Starting with the storms last spring to the moisture in July then again later this year, it looks like we will have grass this coming year. Also, the market signals look very optimistic. Reports have indicated that the national cattle herd is the lowest it has been since 1962 and along with the strong market reports and beef demand.

The bulls will be fertility tested the end of March or as soon as the weather permits. We will then contact you and work with you to get them delivered sometime around the end of April or first part of May. They are guaranteed for the first year breeding season. The cattle are only as good as they perform, so if there are problems with the bulls, please let us know and we will do everything we can to make it right.

We want to thank everyone again for their support and want you to know how much we value it.

Sincerely,

**Anderson Cattle Company**
