Welcome to the 25th Annual Bet On Red Sale,

This year is truly a special event, marking the 25th Anniversary of the Bet on Red Sale! The Western States Red Angus Association Board of Directors has worked incredibly hard over the last year to ensure that this is an event that none of us will soon forget. If there's any year I could encourage you all to make the trip to Reno, Nevada, this would definitely be the year.

It is a true privilege to have the opportunity to work with the best Red Angus breeders in the country, in helping to execute the Bet on Red Sale. A genuine highlight of my year is the chance to visit with each and every one of you; to get to know your families, programs, and goals a bit better and talk about the exciting future ahead.

We are so blessed to be a part of a breed that is experiencing positive and rampant growth. The demand for Red Angus cattle is stronger than it has ever been. Cattle prices are experiencing positive movement, and the future looks bright in the cattle markets for the next few years. There may be no better time to find that up-and-coming donor or acquire a few breed-leading replacements to strengthen the herd and provide high quality bulls to market over the next few years. Last year was certainly a record-breaking year for the sale, as a heifer calf consignment from Feddes Red Angus topped the sale at \$30,000, selling to the Hansine Ranch of Pierre, SD. That Resource daughter had admirers from every corner of the country!

As the consignments have funneled in, and with a few herd visits taken, I can without a doubt say this year's Bet on Red will prove to be the best event to date. I am humbled by the willingness of so many long-standing, reputable ranches to consign their very best replacement females to the auction block in Reno. Top quality cattle come from top quality breeders, and I would challenge you to find a better set of cattle, embryos, and semen anywhere in the country. This catalog is packed full of some of the best Red Angus cattle you can find. We welcome all to a weekend packed full of great people, and breed-leading Red Angus cattle.

If you are unable to join us in Reno, please plan on tuning into DV Auctions for the Bet On Red Sale. If you need any additional information or assistance prior to the auction, be sure to contact myself, Garrett Knebel, or any of the other representatives that will be there sale day. Arrangements can be made with consignors to assist in delivering the cattle, or there will also be capable truckers that can be contacted to help get them home to you.

For those of you able to attend, we are looking forward to an incredible event in Reno!

With Sincere Appreciation,

Garrett Knebel

Selling lottery style at \$10/ticket to start the auction with the winning ticket being drawn at the conclusion of the sale and the heifer awarded to the winner. (i.e. \$500 bid gets 50 tickets, \$300 bid get 30 tickets, etc.). Good luck and remember the more tickets you buy, the better your chances to win!

We assume every time a member of the Western States Red Angus Association makes the commitment to donate a heifer, it isn't quite as easy a process as it might seem. It's not like you just wander out to the heifer pasture and pick out a female you could probably live without. This is a totally different deal. You are expected to trot out a female that no one in the family wants to part with.

That's where we are with MCC Miss Reba 205. She is no accident. She is the product of a deliberate attempt on our part to obtain cows from the Brown Ranch that were granddaughters of KRN Reba's Robin who produced the \$65,000 heifer that sold at the NILE and also produced Grand Canyon and Major League.

What's more, she is out of 9-Mile Franchise 8942, the top age-advantaged bull from their fall-calving program and a bull sporting a 3% Gridmaster score plus 8% for weaning and 2% for yearling weight. 205 is stylish, with exceptional width and depth. She has a 9% weaning score, a 7% yearling weight, and an average daily gain at 7%. She also stands in the upper 20% for carcass weight and REA.

We will be selling this heifer as a lot right after Lot D1

This year Rose McPhee wanted to do something very special in memory of her Granny Nellie McPhee who went to be with the Lord and the love of her life Roy McPhee June 25th 2022. Roy and Nellie McPhee were huge supporters every year of Bet on Red since the start, whether it was consigning animals or purchasing animals. Roy & Nellie instilled that same generosity in Rose and the value of giving back. Rose has selected this beautiful powerhouse of spring heifer calf right from the heart of her personal herd, to donate to raise funds for the futurity in memory of her Granny. The proceeds from Lot D2 will fund the Roy McPhee Memorial Futurity.

25th Anniversary

Lot 1

If you like investing for the long-term, you'll want to take a look at this stylish heifer with a one percent score for stay. That's probably because her dam, DKK Dazzle, is still going strong as she heads into her tenth year. MCC Dazzle has some other impressive statistics like her 4% ProS ranking, a 1% for Herd builder and 15% for Milk. What's more, she is the first calf out of Freight Train to be offered at auction. He's a Domain son out of one of those famous Starlette daughters who is just starting what we anticipate will be an illustrious career.

Lot 2

Again, 208 comes from a heifer crop we think is our best ever. This young lady has caught our eye almost since the day she was born. What's more she is from the 8-year old Traveler cow which just keeps producing exceptional calves year after year. She traces back to Damar Connie and like her pen-mate is out of Great Basin whose progeny have consistently been well-received. She offers a 4% marbling score and is in the upper one-third for ProS, Gridmaster, and calving ease direct. She weaned at 736 pounds. Like our other heifer, she spent most of the summer in the mountains, so she's only been home for several months.

Lot 3

Tidybee 211K is one of the most exciting females we have ever produced, crossing all of our favorite sires... and you can tell she likes herself! The Tidybee clan is well known for its flashy, up headed, deep bodied look in a dark red package, and 211K is exactly that.

Her dam is an incredible young cow out of the many time champion One of a Kind 6129. That cow's first calf by Rebelde 8703 was a class/reserve division winner in Reno last year and will be back as a powerful bred heifer this year.

Her sire is 9 Mile Enterprise 8180, the \$37,000, big bodied, easy fleshing son of Franchise 6305, and you can see his influence all over this female. Videos of our sale heifers, and photos of all of the cattle mentioned in our footnotes, can be found by scanning the QR on this page with your phone camera and following the link.

Lot 4

Copperlass 203K is Red Angus royalty, going back to the great 6R Copperlass 910 who won Grand Champion Female in Salem, Reno, and Denver in 2014...as a cow/calf pair! Our most productive cows are all direct daughters of 910, and with 203K to her credit, this young dam will be joining that group of "never miss" cows.

9 Mile Enterprise 8180, our favorite 9 Mile Franchise son, continues to impress by stamping his calves with a big foot, tons of bone and body, with meat and muscle to spare, and 203K is exactly that. This might just be one of the great ones...don't miss your chance to own her!

New This Year: 6R Ranch will be adding an extra \$1,000 to the futurity show purse if the winner is a 6R female...if one of our sale heifers wins the futurity next year, the junior will be winning \$3,500!

Scan for more information from 6R Ranch!

Lot 5

Without a doubt, two of the most exciting heifers our program has ever produced lie here in Lots 5 & 6. BARH Kokomo 237 is one of the very first daughters marketed from our new herd sire, H/H Mount Up 0026; a bull that in his first calf crop, has convinced those with his progeny that he's a calving ease bull worth going back to. Kokomo is a stunning heifer calf, beautiful through her front-end, and exploding there back with power and shape. She matches that power at the ground with a big leg, uniform in bone, and is truly flexible through each joint, allowing that power and punch to glide through the grass. With extra presence and a high head carriage, she's hard not to admire. Backed by one of our beautiful H/H Dynasty 8051, first-calf-daughters, you can see why she's got all the look you could ask for. If you're in the market for a young heifer calf that will gather some ribbons, but really provide a return in the cow herd, circle this lot number to find on sale day.

Lot 6

With determination to produce the absolute best Red Angus cattle we can make, Lauren & I traveled to Niobrara Red Angus last fall to put together a small group of bred cattle that would truly push us forward within the breed. One of the young cows that made their way to Troy, Idaho was the mother of this absolute knockout of a Nova daughter. With a pedigree the most astute cattlemen can appreciate, combining Reckoning and Copenhagen here in BARH Kaydee 217 should tell you the elite cow that this heifer will mature into; feet, bag, and a maternal kind, she'll check all the boxes. With the stunning Nova head and an absolutely massive body type and rib cage, Garrett told us this heifer would have fit into his Flash & Function Sale perfectly. We chose to maintain our tradition of bringing our program's very best to Reno, to offer in this year's 25th Anniversary Bet on Red Sale.

Lot 7

Wow what a heifer! Chinook 2310 combines some of the most sought-after genetics the breed has to offer today. She is already a winner... after she was named the Champion Red Angus and Reserve Overall Female for both the FFA and Open class at the recent '22 Walla Walla Fair. This cow family needs no introductions at the BOR... her dam is a powerful young 9 Mile Franchise daughter out of Chinook 6309, the Eldorado daughter that sold in the '16 sale to Mackenzie Forbes and came back to be named the Futurity Champion at the '17 Bet On Red. The foundation dam, Basin Chinook 8459, was one of the premier donors at 9 Mile Ranch with 59 head of progeny to her credit. The sire, PIE Quarterback 789, has taken the breed by storm and his progeny are some of the most desired genetics around the country. He offers the full meal deal, ranking among the top bulls in the breed for calving ease, growth and carcass traits, and his first daughters went into production this spring and are really turning heads with their maternal abilities and beautiful udders. We would like to retain a flush at the buyer's convenience and seller's expense.

Lot 8

This heifer is a full sib to CHNL Belle 103H that sold last year in the Bet on Red Sale. If you missed your opportunity last year, count your blessing because we've got this one with a very similar type and kind to CHNL Belle 103H. This heifer's supreme genotype came from a Solution Genetics background on both the maternal and paternal sides making her one competitive show heifer. Her sire SLGN X-Files is a well-known bull across the US. Her dam from the Overmiller Family has offered fantastic growth to our herd over the years and in her youth she had multiple winnings including the Western Red Classic 2015 Open and Junior Grand Champion Red Angus Heifer. Her 101K calf is one of our top picks out of her calve crop we've seen. 101K is a fully complete female from the ground up with lots of future potential. Deep in her chest with lots of capacity and wide top to balance her out. She's a female that has the bone mass to carry the power that she offers from her long body and deep side. She will be a special type to add to your herd, offering style to your show string and when she is finished working the show ring she can be turned out to work in the pasture.

Lot 9

102K is a 3 Aces Sideways' daughter who came out of our Solution Genetics cow. With this combo you are in for a real treat! Her dam was competitive as a bred heifer winning multiple fairs and regional shows, including the Red Western Classic 2014 Junior Grand Champion Red Angus Heifer and Division Champion in the Open Show. Now her dam is being used as a productive cow in our herd.

102K carries many of the same maternal characteristics her dam offers. 102K is an attractive, big framed and long bodied heifer who is sound on the move and has the design to be an extremely competitive bred heifer. After she is finished in the show ring, she will add to your herd with longevity as a successfully producing cow.

Lot 10

This gorgeous cherry red heifer embodies the kind of Red Angus female that we try to create to go back in our herd as a replacement female. We pulled right off the top when we chose this tanky heifer. Her power, long-sided and deep bodied look should catch your eye. CK VRDALE 2078 is a real Gem. Mama is a very eye-appealing Nexus daughter that draws your attention when you walk into the pasture. We are excited about getting these DKK Brute 931 daughters in production and we will look forward to seeing what this heifer will do for her new owners.

25th Anniversary

Lot 11

Clark Rosebud 1914-2243 is a very complete heifer both phenotypically and on paper. She carries great depth of body and capacity in a very attractive, feminine package. She stems from our very maternal Rosebud cow family which has produced many broody, productive, problem free cows in our herd.

This heifer's dam is a beautiful 3yr old Seneca daughter who is doing a great job. She has an excellent udder and problem free feet. We are really liking what we are seeing in our Seneca daughters -they are looking to be some really good cows.

2243 is sired by the well-known Bieber Deep End. We really appreciate the style of our Deep End calves with their added performance and end product merit. We are very pleased with how he has matched on some of our cow families, and we think this heifer is a great example of that.

This is an exciting offering of one of the first C-T Reputation 0094 females to sell. She comes with an exceptionally feminine phenotype, beautiful front end and foot and leg set. She presents a dark cherry red color with extra muscle and shape. She is backed by one of our most prominent, herd-influencing cow family's, "the Linsey Cow family". Her MGD sports a 106 MPPA and MGGD is a 101 MPPA. Sire C-T Reputation 0094 was our high selling herd bull sire in 2021 to Overmiller Red Angus KS, Niobrara Red Angus NE. He is a top C-T Red Rock 5033 son with calving ease, extra muscle and capacity, all with as correct of foot and leg structure as you can put on an angus bull. Don't miss this opportunity to own a breed leading female that will stand out in the show ring and the pasture.

The Foundation to Rangeland Restoration.

HighNoon™

HERBICIDE

HighNoon™ herbicide is the new standard in western rangeland herbicides for the visionary land stewards of the Western US. Offering an unmatched combination of weed control spectrum, HighNoon is safe on desirable grasses and forbs, and boasts a broad use site flexibility.

HighNoon provides significantly broader spectrum weed control than Milestone® herbicide while still providing the same excellent control of knapweed and thistles.

Flexible Use Sites Include:

- Rights-Of-Way
- Rangeland
- Permanent Grass Pastures and Hay Acres
- Reserve Program (CRP)
- Non-Crop Land Areas

Learn more about HighNoon herbicide at [HighNoonherbicide.com](https://www.HighNoonherbicide.com).

Dam of Lot 13

This heifer calf has fancy written all over her. She has very correct lines with extra capacity and muscle. She moves like a cat and has the disposition of a puppy. Dam is an Elite Donor cow in the C-T herd Co-owned with Rocking Bar H, WA and Feddes Cattle Co., MT. Dam is sired by the popular female making Feddes Oscar X28 bull and stems from our very proven "Miss Pan" cow family. Her sire needs no introduction, MRLA Resource 137E, is one of the most popular Canadian sires to be used in the US over the last few years and has done a great job of making some very functional and correct cattle. Don't miss this exciting young prospect for the show ring or the Donor pen.

Lot 14

Show calf? - Absolutely! Brood Cow? - Yes!
 This is a super feminine, moderate framed, expressively muscled, correct footed, and a thick rib full of goodness. She comes as a kit with solid EPD's, respectable performance, a cool front end, wide load sign on the back, and packages it in a lot of dark red hair. This little lady is an ET calf that is a full sister to the high selling Dory Jiba heifer from the 2020 Bet on Red Sale. We expect great things from this heifer both in the show ring, and as a cow. Red Box and Dory Jiba is a pretty tough mating to pass up. Would like to retain the right to flush this heifer at buyer's convenience and seller's expense.

Lot 15

What a better way to celebrate the 25th anniversary of the Bet on Red sale than with this gem of a consignment by Del Toro Red Angus. DT Relentless Ruby is truly a One of A Kind type of female that is as impressive phenotypically as she is on paper. Take a moment to admire her exceptional genetic script that offers up to 10 traits in the top 15% including Top 1% Pro S, Top 2% HB, Top 3% BW, Top 1% Milk, Top 4% CEM, and Top 2% Marbling. With impressive, balanced pedigrees on both top and bottom side, this bold and broody heifer is bound to become a maternal asset to your herd. Much like a ruby itself, DT Relentless Ruby is one of the most valued females consigned in the 2022 Bet on Red sale.

CONSIGNED BY: DELTORO RED ANGUS

Lot 16

DT Dunn Diamond is a true testament to the strength of the Bet on Red sale. Dam Dunn 1920G was purchased by Del Toro Red Angus in the 2019 BOR sale and has proven herself yet again by producing high performing offspring year-after-year. DT Dunn Diamond is an exceptionally well-balanced female that ties high out of her neck and shoulder attachment making her one of the most attractive females in any group. Her extremely docile and ultra-feminine qualities validate her to be an elite combination for prospective, competitive Jr. showmen. Productivity, performance, and power make this diamond stand out above the rest.

25th Anniversary

Lot 17

When Garrett came out I hoped he would not find this heifer or her sister. We've been watching Clark Mattie 1201-1401 raise herd bulls, top heifers and a son standing at ABS for the last 6 years. When we had the opportunity to purchase embryos on her we jumped on it and this heifer is why. We were even more excited to be able to get embryos by Resource 137E whose progeny has taken the breed by storm. The phenotype she passes down is amazing. You could travel all over the country and not find a cow with better feet, legs and udder. 2092 has a gorgeous front end, huge rib shape and dimension and follows it up with just the right amount of rear quarter. This is one exciting genetic combination. We have a full brother to 2092 that will be a bull sale headliner next spring. We have no doubt this heifer will end up in a donor pen somewhere and we would like to reserve the right to one future flush at our expense and the buyer's convenience.

All we can say is WOW does Garrett know how to pick them. This heifer's maternal sister out of MRLA Resource 137E was last year's sale topper at \$30,000. The second high selling heifer at \$25,000 was a daughter of MR Coach 1296. "Look at what happened last year, now we can sell a combination of the two" said Garrett. We were really hoping he wouldn't find this heifer as we are officially out of Coach 1296 semen now. A full brother to this heifer is in heavy use both AI and naturally at home, at C-T and in California. The dam to this heifer, Feddes Blockana Y63-C31 could be one of the most prolific cows we have produced. Not only does she pack an amazing phenotype with a gorgeous front end, deeper rib than any female we have seen and a nearly perfect udder she also has one of the top EPD profiles in the entire Red Angus breed. She boasts 10 traits in the top 5% of the breed, yes that's correct. Top 1% ProS, 1% HB, 4% GM, 5% WW, 1% YW, 1% ADG, 5% HPG, 1% Stay, 1% CW & 3% REA. If you enter those 10 traits into the Red Angus database there is not a single animal in the breed that matches her. This is the kind of female that can be a herd changer and go on to do great things.

255 is Red Angus Royalty if ever there has been. She brings together some of the greatest cows and bulls the breed has ever seen. She is also sired by one of the most exciting young sires in the breed today, C-T Reputation 0094. There has not been this much excitement around a bulls first calf crop in many years. On the maternal side of this pedigree is the great Lakina cow family. The Lakina family also produced Feddes Big Sky R9. The granddam of 255 is a full sister to Big Sky. On the top side, 255's great granddam is none other than C-T Linsey 0964, quite possibly the greatest Make Mimi daughter in the breed. This heifer has growth, maternal traits and carcass. Her dam is a beautiful cow with exceptional feet and an excellent udder. This truly a unique breeding piece that could fit into anyone's program.

If you like them moderate framed, deep ribbed, and wide based, don't count out this powerhouse GMRA Trilogy 0226 daughter. She has had our attention since day one for the Bet on Red sale. This heifer has not only the right look but the right EPD profile to match. Flatiron Sophia 220 stems from one of our long-time maternal cow families. Her dam is a beautiful two-year-old LSF TBJ Tabasco 5830C daughter with great feet and utter structure. She has started off with a bang and we are excited to pass on these outstanding genetics to you.

Sire of Lot 20

25th Anniversary

Lot 21

Connie K14 combines the best of both worlds when it comes to genetic data and phenotype. This beautiful heifer has the looks to match breed-leading EPD profile. She sits among rare company at the elite top of the breed for carcass traits with a phenomenal 1.00 Marbling EPD and a top 1% rank for Gridmaster. Her sire, Prime Factor, is one of the breed's premier carcass sires, ranking among the elite top 1% of the breed for Marbling with a 1.18 MB EPD, and the top 7% of the breed for Ribeye. He combines the outcross genetics of the Angus marbling superstar, Ten X, and is out of a 105 MPPA daughter of Red Angus marbling leader, Expectation. The dam, Connie 808, is a top young donor at Hickman's with a beautiful udder and great foot structure. She is a daughter of the \$150,000 growth and carcass leader, LSF MEW Platinum 5660C, and maternally comes from the Damar Connie W042 cow that was a bigtime donor in the Lorenzen program with 33 head of progeny to her credit.

We are extremely excited to offer another pair of heifers sired by HRA Lookout 711E for the 25th anniversary of the BOR!

Even as a young calf, Sparkle stood out among her half-sisters as a elite brood cow in the making. Her young dam, who hails from the famous Lazy MC herd in Alberta, Canada, is a no-nonsense hard working cow, who simply gets her job done in a drama-free manner, and is sired by Lazy MC Steeltown 102E, a black son of TC Outsider 101B. The Lookout daughters are extremely productive and highly maternal with beautiful udders with impeccable structure. This combination should give Sparkle 209K all the tools she needs to be a highly productive female in any herd.

Katie Colyer

25th Anniversary

Lot 23

It's a cliché for sure, but it's also true when I say how much I hate to let this one go. Her dam's first calf was the Reserve Grand Champion bull in Reno in 2020, and 210K is her first heifer, so plenty of solid reasons why I hate to offer this fancy heifer. There's definitely some ring potential built in to this one too, with her eye appealing profile, calm demeanor and the kind of hair Red Angus exhibitors dream about. This March born redhead can compete or go to work making herd bulls, or both!

Lot 24

Iron Triangle Ranch has pulled out all the stops with this beautiful heifer right from the top of their fall ET program. Abby 1901 is a powerful, deep bodied female with loads of performance and muscle. Her carcass numbers are off the charts, ranking in the top 6% for Marbling, 5% for YG and 5% for Ribeye.

This one comes with a little Bet On Red history. Her dam, VF Prime Abby C305-7989, was a featured heifer calf in the '15 Bet On Red where she sold to North Santiam Red Angus in OR. She is by Prime Time out of a direct Conquest daughter of the famed Ms Abigrace L7730 donor at RA Brown Ranch in TX.

Her sire, Bieber Hard Drive Y120, has been one of the most popular and sought-after bulls in the breed. He is known for his breed leading growth and carcass traits, as well as siring some of the most productive daughters in the industry.

DKK Ramblin Ruby 2015, 4599093. Elegant and Powerful; this dark, cherry-red beauty is bold in her rib and sleek in her front end. DKK Ramblin Ruby 2015 is long-spined with a fantastic EPD profile, excellent disposition, and great feet. High praises go to her beautiful dam – producing a heifer of this caliber on her very first try. Momma has a perfect udder. The Ramblin Ruby cow family is most definitely one of our favorites; and this is why. We have used her sire, DKK BRUTE 931 extensively in our A.I. program. We sure love what he consistently brings to the table.

Lot 26

DKK Diamond 2059, 4598893. A special Sweetheart of a heifer. Her disposition, eye-catching structure with added capacity are reflective of her sire's influence. NCRA Rolling Thunder 2034 is stamping them one after another. We couldn't be more pleased with his foot structure, extra capacity, progeny, consistency and disposition. Maternally, DKK Diamond 6051 is POWERFUL! Sporting a 108 MPPA on her five calves, she consistently does her job with added performance and flare. Set on a very good foot and displaying a gorgeous udder, 6051 is quickly becoming one of our top cows.

Lot 27

Simply put, this heifer can be summed up into one word. Maternal. This February heifer is a long bodied, level, and feminine individual with plenty of power to go along with it. She stems from a great cow that not only has the style and power that is needed in a female, but is such an easy keeper and is functional as they get. It seems KB Agnes 5222 has taken after her mother in all of these traits. Don't miss out on this heifer that could be a fun one to keep in the show string and then be turned out to make a great cow in a lot of different environments!

Lot 28

Style is one of the first things that comes to mind when I think about this heifer. KB Lady in Red 7522 is a standout kind of heifer sired by TWG Tango 156D. She has been a favorite since she hit the ground and probably wouldn't leave our place if we didn't just retain her dams first calf back into our herd last year. She is an extremely complete February heifer that will certainly catch anyone's eye with her extended front end, depth, rib shape, and overall capacity. Not to mention that deep cherry red to top it all off! Not only that, but she also has that easy going showring attitude. If she's anything like her dam or her half-sister, then she'll be one that could work in anyone's show string/herd!

25th Anniversary

Lot 29

This Red Box daughter is a gem, she could make the donor pen just like her mother, whose Bucket List son, LASO American Dream G117J, topped our sale this spring selling to McCann Red Angus. She is a carcass queen on paper and yet she is a broody, feminine package that will produce some great females that you will want to keep and build upon.

The burden is now on you, we couldn't decide which one we liked best, so we are offering choice on these two awesome heifers! LASO Lana G129K is as pretty as can be, out of Township 17G and one of my favorite young cows. Her Grandmother is our Donor Cow, Lana A178C, who hits it out of the park every time, producing sons like LASO Alamo C92H, our all time high selling bull in 2021 to Bull Hill Ranch.

Lot 30B

We are "passing the buck" and letting you decide which one we get to keep! Either way it'll be bittersweet because we love both heifers! LASO Lana R183K is another Granddaughter of Lana A178C, who shines and is our only Red Bear daughter. She has the look, and will make a tremendous contribution to the breed no matter where she ends up. Flip a coin on these two heifers and you can't go wrong!

Lot 31

What an amazing deep ribbed, powerful heifer calf we have here! If Rachel 668-2101 looks familiar it is because she is a maternal sister to the massive bred heifer Leachmans' sold here last year for \$11,000 to Iron Triangle Ranch in OR.

Her dam, Rachel 668, can flat raise one now! She stems from the famed Rachel cow that was the founding donor dam in Kurt Rich's herd in Iowa with over 70 head of progeny to her credit.

Her sire, EGL Guidance 9117, is the \$70,000 high seller from the '20 bull sale season, going to 9 Mile Ranch, WA, Jeffries in OK, Shick's in MT, and Triangle Cattle Co in TX. He is an outcross son of carcass leader, MCD Spur 6111, and maternally comes from the famed Duchess cow family. Guidance has been one of the more popular AI sires of the 2022 calf crop and his progeny will be ones to watch this coming spring.

Lot 32

You will be hard pressed to find another female in the country that combines the data, pedigree and looks that Abigail 9289-2102 possesses. This beautiful heifer is on the cutting-edge for breed leading data, with 9 traits that rank in the top 20% or better amongst all of her contemporaries in the breed. Her sire, PIE Captain 057, was the \$150,000 top selling bull in the breed back in '21. He is living up to all the hype, earning a trait-leading 23 CED EPD proof with his first calf crop. This will be one of the first daughters to sell in the country and she might just be the one to own. Her dam, Abigail 9289, is royally bred, stacking her outcross carcass leading sire, MCD Spur 6111, with growth leader, 5L Out In Front. The foundation dam, A7180, was Seth's pick of the heifer calf crop in Brown's historic '13 dispersal sale. Now a prolific ET donor, and her progeny include the '18 Red Western Classic Champion Female and Bet On Red high seller going to Peacock's in TX. Another daughter sold in the '21 9 Mile Sale to Iron Triangle Ranch in OR for \$32,000.

25th Anniversary

Lot 33

Tamara 2911 comes out of a heifer we bought here in 2019 from Mabee's Red Angus. 90-11G has turned out to be a great cow with a good udder and feet, she produced a really soggy and stout made heifer last year. 2911 is out of Lost Crk Don Julio, who is injecting stout and big hipped cattle in our herd. He is also a half brother to the Lot 27, Jose Cuervo daughter, we sold last year.

2911 follows that same suit as her sister. She is very docile, making her a great opportunity for a junior. She is one that is hard to find a hole in as she ties a lot together phenotypically. She is really balanced from start to finish, ultra feminine, exceptional rib expression and does not disappoint when you get behind her.

Star is a stunning September fall heifer that will be a standout in the fall heifer calf classes or in the pasture. She has all the performance you will need to make an impact in your herd. She is stacked with plenty of calving ease and growth with a bonus of carcass quality. Star is a complete package of flawless phenotype with performance to back it up. Star is sired by our Flatiron Precision 643 herdsire who has also sired many of our Bull Sale high sellers and performers. On the maternal side her dam has a 102 MPPA and is a maternal sister to this year's Bull Sale high selling Lot 1 lead off bull McPhee Easy Choice 5057. Don't miss your opportunity to add this shining Star to your herd, from a herd that has been in the Red Angus business for 51 years.

Lot 37

This is a unique opportunity to purchase a dark red Wick daughter out of an incredible donor. This one is elite in her build and pedigree. What makes her truly special is not only the look and power she offers but her skeletal quality. She comes to the ground true and square. Take her on the show road and fill your barn with banners or move her directly to the donor pen. With this heifer there are no wrong decisions other than not buying her. In buying these heifers you are not only buying the animal but the full support of the entire Gold Standard Livestock team.

This female is a product of what not only the best of what Bet On Red has to offer but the industry as well. They are out of the high selling female of 2020 that was purchased by Ayven Moon who went on to win 8 shows across 5 states with Dory. They then capped off their show career winning the futurity at bet on red in 2021. This Duff Red Blood female is a stout easy keeper who will undoubtedly follow in her mother's footsteps. Her dam has a picture-perfect udder and rises to the top from a fertility standpoint. She was successful in an IVF program as a bred heifer. In buying these heifers you are not only buying the animal but the full support of the entire Gold Standard Livestock team.

25th Anniversary

Lot 39

This one is extremely hard to part with and the decision to sell her has led to an argument or two in the barn. A standout from the first day out of one of our most consistent cows and our herd sire H/H MHC Vintage 0101, she is simply elegant. Perfect in her pasterns and angles, tons of bone, and extremely sound. She is elite. Come see her in person at Billings and Reno.

Lot 40

MHC Abigrace 222K is the result of an embryo we purchased from Rhodes Red Angus in Kansas a few years back. This heifer calf is huge middled, stout, and sound with ample bone and near perfect skull shape. Her dam, C-Bar Abigrace U875, has 130 registered progeny on record and we can see why.

Sired by Red Northline Rock Star 911U who is still producing champions at the age of 14. Eye appeal and proven genetics. Stop by our stalls in Billings and Reno to see her in person.

PROFIT. REPEAT.

Generate repeated profits with the industry's most-favored female.

Independent research from a decade of data collection showed Red Angus-sired heifers commanded \$66/head more than females of other breed types. That's nearly \$5,300 on a single load of replacement heifers to boost profits on your operation.

Visit RedAngus.org for details on the industry's most-favored female.

A large Red Angus cow with a yellow ear tag and two Red Angus calves in a field. The cow is in the center, looking towards the camera. The calves are in the foreground, one on the left and one on the right, both looking down. The background is a field of tall grass under a clear blue sky.

RED ANGUS
RANCH TESTED. RANCHER TRUSTED.

Lot 41

Owng Sherry 2206 has been a favorite all summer. Sherry is a thick topped, square made female. She is a granddaughter of NBAR Hamley 5913. Her sire TWG Tango 156D is a popular son of Ringstead Kargo 215u. Tango is a big stout bull with a nice phenotype. If you want a female, you can show and have a powerful cow you like to look at in the pasture every day, look no further than Sherry.

Lot 42

Check out the balance and eye appeal of this Duff Red Bear 1854 daughter. Her mother, an 11-year-old female, has been in the Owings pastures since birth and isn't going any place soon. She has had numerous daughters that have sold at the Bet On red, Nile, and the Mile High Classic. She is a no miss female. Gabbie has a flawless phenotype. She has a nice spread of -1.3 birth to a 93 yearling with a plus 23 milk. Some of the breeds legends are in her pedigree, Manns Red Box, Pie grid Master, Glacier Logan. If you want as sweet of a heifer and a cow to take home, don't overlook Gabbie.

Lot 43A

Offering Choice on Owng Eva 2055 or her heifer calf Pais Sandy 2217.

OWNG Eva's mother is a 7-year daughter of C-bar Evolution 107Y Her sire, OWNG Hero 1701 is an own son of Red lazy MC CC Detour 2W his dam is from our great cow VF Z126 who is sired by Larsen Red Galaxy 972. Eva is an extremely dark red female with a beautiful udder for a first calf heifer that carries herself as a front pasture donor female.

Pais Sandy is a daughter of Duff Red Bear. We can't say enough about Sandy, she is large boned deep sided with ample thickness but carries herself in a feminine package. Owng Eva sells bred back to Duff Red Blood. You make the choice, a hero daughter bred to calve to Red Blood or a Fancy heifers calf sired by Red Bear.

25th Anniversary

Lot 44

There is always an aura of anticipation when the Raisland's bring one to town, and not to disappoint, here is one of their best heifers yet! Lakota 201 is a dark, cherry red powerhouse heifer that stood out like a sore thumb amongst their calves this summer. This is one that can be competitive on the tanbark but has the genetic prowess to go on and raise a bigtime herd bull or replacement heifer. Her sire, KJL/CLZB Complete 7000E, was the talk of the town back in '18 when he topped the Red Angus bull sales for a whopping \$180,000. He now has around 500 head of progeny to his record and an EPD proof that is still off the charts. Now deceased and little to no semen available, Complete daughters like this one are a rare commodity. Her dam, Lakota 835, is a top young Titonka daughter that has raised her second replacement quality heifer in a row, the first being a beautiful Quarterback daughter the Raisland's retained in the herd. Maternally she stems back to a foundation Grand Canyon daughter that is also the maternal power behind the popular ST Genetics AI sire, PIE Just Right 540.

It is hard to believe that the Raisland's are even offering this one! Lakota 211 is a super long made, feminine sweetheart of a heifer that comes right from the heart of their herd.

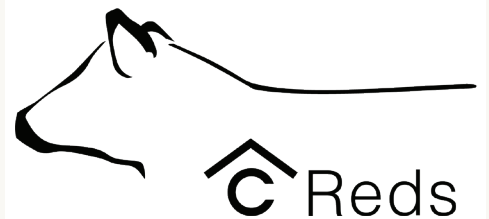

If you don't own a daughter of PIE Quarterback 789... you're gonna want one! This bull has captivated the audience of Red Angus breed the past few years with his sale topping sons and daughters and now we are seeing his progeny in production and is all good.

Maternally she stems from the famed Lakota cow family that has left a strong impression in the Raisland and Cawfield herds. If you dig deep enough you will find the Cfld Lakota 841-006 cow that was the dam of the famed Lakotas Heavenly 305 sire on her way to earning donor status with a lifetime MPPA of 106.

We are offering an attractive, powerful LSF SRR President 8177F daughter out of a 5L Independence dam. RRR H190F combines two great cow families on both sides of her pedigree with some impressive EPDs across the board. AI bred to Lorenzen Mr. Profit 8938 (reg# 3921133) she is due to calve 1/16/23. This breed leading HXC Charter son was a top selling bull out of the 2019 Lorenzen Bull Sale. The pairing of these two make for good growth, female, and outstanding carcass traits. Possessing a phenotype to go with stand out EPDs, we are confident this will make a great addition to any herd.

Lot 47

From a dam out of the Dunn cow family and sired by Brown Top Tier G242 this yearling heifer has the looks and pedigree to excite any breeder. RRR J187 is an outcross with a feminine appearance and solid set of EPDs. It is hard to tell from her bold structure and deep body that she was ranch raised alongside the commercial herd. Ready to breed now for a fall calving program or hold off until spring. We hate to see her go because this one aims to please and will definitely make a great cow for someone down the road.

Lot 48

This year TJ brings you a March calf, out of his 2017 NILE Sale pick SUNR AQUILA 768 and the popular L83 2strong 13f bull, who was National Reserve Champion Red Angus Bull at the 2019 Fort Worth Stock Show and Grand Champion Red Angus Bull at the 2019 NILE in Billings, Montana. The heifer comes to you in a thick moderate package, and a beautiful cherry red color. Being a March Calf she will get you juniors out of the tough January and February classes, TJ has her gentle, cake broke and ready to go. She will already have been shown at the NILE Junior and Regional Red Angus show prior to coming to Reno.

Lady in Red 1264 has the makings of a future donor cow and will be a massive heifer for the futurity next year! She is a high-performance heifer that puts everything together in a sound made, big boned and massive rib shape package. The dam of this heifer is a direct daughter of Mulberry. Mulberry semen is no longer available; he is siring outstanding progeny that are low maintenance, easy fleshing cattle. They have moderate birth weights and his daughters have perfect udders. Our Lady in Red Cow Family has been the matriarch for our Red Angus program. The Grand Dam, Lady in Red 114Y, claimed Reserve Champion Female of the 2013 Red Western Classic show as a first calf heifer. She was a Red Angus Donor who you can flush her to any popular bull and she doesn't miss, unfortunately, we lost her this past year and this heifer's Mulberry Dam will be her replacement in the donor pen.

CONSIGNED BY: WINTER BROOK CATTLE COMPANY

We're pretty confident that Barmaid 2205 was born to be a show heifer for a junior member with her easy-going temperament and stunning profile! From her hind leg set, long body and smooth hip through her elegant front end, she even holds her head like she's in the show ring! On top of how she looks, she has the pedigree to be a cow when her show career is over being that she stems from Six Mile Barmaid, who had a very successful show career for Morgan Kramer. Her dam is a first calf heifer by the infamous John Wick and she hit it out of the park with her first calf...she will be making her way to our donor pen very soon! Her sire, Duff Red Blood, sold for \$135,000 semen interest in the 2022 Power Plus Bull and Female Sale and with all the interest his semen in now in short supply.

Research Validates Red Angus as Most-Favored Female

Ranchers across the country have long recognized the value of Red Angus females as the foundation of a profitable cowherd. Now, independent research validates those years of cattle production experience with tangible data proving the Red Angus heifer's worth.

Research Confirmation

Esther McCabe, et al., of Kansas State University, led a study that confirmed Red Angus are the most-favored female in the industry. McCabe and her team compiled five years' worth of pricing data from Superior Livestock Auction, comparing 13,804 lots of heifer calves totaling over 1.2 million head that sold in 116 video auctions.

The research team evaluated the effects of independent variables on the sale price of heifer calves that fell into six different breed composition groups: English, English crosses, English-Continental crosses, Black Angus-sired out of dams with no Brahman influence, Red Angus-sired out of dams with no Brahman influence, and Brahman-influenced.

They deduced that Red Angus-sired heifer calves bring \$5 to \$9 more per hundredweight than all other breed types.

Rancher Trusted

While market research validates the price advantage of Red Angus heifers, ranchers have tested and trusted her worth on the range for years. Red Angus females are desirable as replacement heifers because they mature into productive mother cows that reward producers with extra dollars in their pockets on sale day.

Red Angus cows have gained ranchers' trust as a complete package through fertility, fleshing ability, good disposition, longevity and excellent overall production. They produce feeder calves that earn premiums in the yard and on the rail through docility, feed efficiency, conversion and carcass merit.

Over the years, stockmen have voted with their checkbooks, purchasing heifers they know will bring profitability to their ranching businesses – and Red Angus females are their most-favored choice. ■

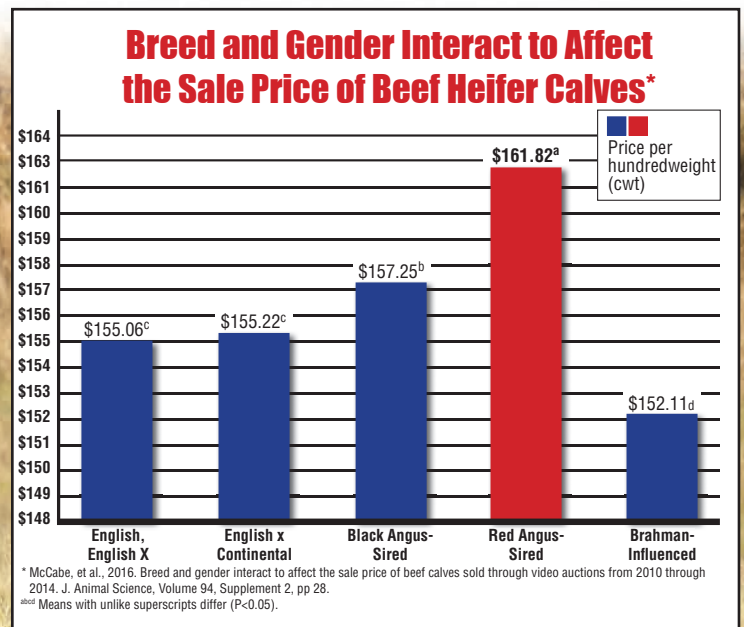

Independent research studying five years of Superior Livestock Auction data confirms the value of Red Angus replacement females.

Red Angus Stockyard

List or locate quality Red Angus replacement females at stockyard.redangus.org. Over 20,000 head of cattle are sold each year through the Red Angus Stockyard.

FeMail

An electronic tool to help locate or market ranch-tested replacements. Market your open heifers, bred heifers or cows, or cow-calf pairs. FeMails are designed for offerings of 25 head or more to complement listings on the Red Angus Stockyard.
