Cattle with Something Extra!

2023 Professional Cattlemen's Bull & Female Sale – Cattle with Something EXTRA!

Dear Friends and Customers,

We look forward to spending time with you at our seventh annual Hunt's H+ Brangus Bull & Female Sale and offering you the deepest set of bulls we've ever developed. In addition to the extremely deep set of MC Something Special 889Y2 offspring that you have come to expect in our sales, we will debut a new combination of genetics. We will have more AI sired offerings than ever before, and a wide selection of animals that are progeny of bulls that were bred, born, and developed here on our ranch! Two new sires, G941 and G914, produced offspring that not only stood with, but seemed to slightly outpace their contemporaries. We view this as a complete validation of the breeding plan we have been using and will continue to implement. Those sires were chosen because they reflect the unparalleled maternal efficiency and productivity of the 127 Cow family combined with the "golden cross" of TCB Catawba Warrior R532 daughters and SR Wrangler Warrior T113! This is your first opportunity to purchase this volume of bulls and/or females that carry the 127 Cow family in their paternal pedigree!

We offer you genetically proven bulls by breeding according to our consistent breeding plan. We don't switch to the "bull of the year" or chase fads. We use only proven AI bulls and their best sons follow behind for clean-up. This produces a tremendously consistent cowherd and quality that results in profitable genetics for you. The bulls are raised and developed after weaning on forage and a Purina Accu-Ration Feed that aims for proper development and expression of genetic potential. They averaged around 3.31 lbs. of gain per day for the test period as a group. We collect and report all relevant data on EVERY bull and heifer born on the farm through yearling. We don't adjust contemporary groups or use single contemporary animals to "protect" EPDs. We never play games with the numbers. Our grandfather taught us that, "A good name is more desirable than great riches; to be esteemed is better than silver or gold." Proverbs 22:1. The information we provide is the basis for our reputation as your choice of a genetic provider. We will not waiver from accurately representing our animals!

We believe that profitable cows have live calves, have long productive lives, and raise calves to weaning and breed back every year. Profitable cows need to survive on what nature provides in their environment with minimal inputs. We manage our herd according to these beliefs. Your bulls come from real working cows! Every animal we sell has passed a forage-based gain test, was checked for known genetic conditions, passed an exhaustive veterinarian administered Breeding Soundness Exam and trich test, been carcass ultra sounded by a certified technician, has genomic enhanced EPDs and parentage verification. We go through this effort and report it ethically in order to produce a superior product for you! We call that "something extra." We are committed to your success in the cattle business. When you see the + at the end of our brand, you will begin to equate it with \$ in your pocket on sale day! So, in our way of doing math, H+ = \$ in your wallet!!! That is "something extra" for you!

We could not bring you this sale without the cooperation of our genetic cooperators, Terry and TJ Bunch at Bunch Brangus and our family, Michael, Wesley, Seth, and Jamey Hunt. Additional thanks go to, Auctioneer Luke Mobley, Adam Williams and family at Calhoun Stockyard, Kencade Sumner DVM of Villanow Animal Clinic, Seth Stowers DVM of Hillside Veterinary Practice, videographer, Tyler Ertzberger, and our catalog and ad designer, Tracey Koester. Our father, Michael Hunt, serves as our herdsman and had help this year from a variety of friends including; Blaiz and Blair Harden, Robbie Arnold, and Ross Wyatt. We also appreciate Todd Edwards and Anthony McQueen for their help with AI on the heifer offering, and thanks to Lee Underwood with Ag-Central and Bill Martin with Martin's Cattle Services.

LIVE BROADCAST AND ONLINE BIDDING

DVAuction will carry the sale and you may register with them and follow the sale live and bid via the internet.

DVAuction.com 402-316-5460

WAYS TO BID

- 1. Attend the sale
2. DVAuction
3. Call us and arrange to have a someone relay your bid live at the auction.
4. Call us to arrange to have a buyer-representative bid for you. (Your budget, your specification, your satisfaction guaranteed)

CLAIMS FOR ADJUSTMENTS

Claims for adjustment must be made in writing to the seller within 6 (six) months of the sale date. All settlements will be made with credit at a future sale and this will, in any and all cases, be deemed full satisfaction and settlement.

LIABILITY

All persons attending this sale do so at their own risk. Neither Hunt's Brangus nor anyone connected with management of the sale assume liability, legally or otherwise, for safety of buildings or premises, or for behavior of animals.

COMPLIMENTARY LUNCH

A complimentary lunch will be served from 11:00-12:30

TRUCKING

FREE HAULING anywhere on bull purchases by any individual buyer of \$14,000 or more. This can be one or multiple bulls. These animals must all be registered to the same person.

Additionally, we guarantee a maximum trucking cost of \$400 per bull within the states of GA, NC, SC, AL, FL, and TN if arrangements are made with us prior to the sale. For other states we will be glad to assist with transportation and will get your bull delivered as economically as possible.

FREE HAULING ON BULLS TO:

Free hauling will be available to the Westminster, South Carolina area.

RESERVE SALE POLICY

In order for us to offer you quality bulls at auction year after year, we must insure that we recover the costs of developing quality bulls. We pledge to offer you a quality animal in a fair auction environment. We do this in a straightforward manner by letting you know our base price up front.

All bulls will be offered for auction with a minimum sale price of \$2,500. The high bidder as determined by the auctioneer will be the purchaser of the bull. However, no bull offered in this sale will ever be offered for sale at less than the beginning bid price. If any bulls are not sold they will be available for no less than \$2,750 immediately following the auction and will not be sold for less than that price private treaty.

RETAINED-INTEREST BULLS

We reserve the right to retain a 50% revenue sharing semen interest on any bull sold. Bulls are in your possession and under your control for natural service and you get 100% of the salvage value. We will continue to own half interest in bulls for the purpose of collecting and marketing semen, as well as using semen in our herds. While it is unlikely large amounts of semen will be collected or sold for many bulls, we need that as an option on bulls sold. As a buyer and at your option, you can also have a 50% revenue sharing semen interest and participate in revenue from semen sales. We have developed a Bull Partnership Agreement spelling out further details. Buying a retained-interest bull obligates you to that agreement only for semen collection and sales. To avoid any misunderstandings, if you have any questions at all, please ask. If you chose not to be involved with semen sales, we still reserve the right to collect and market semen on any retained interest bull.

The sale order for all animals will be provided as part of the sale supplement sheet and will be available on the Friday morning before the sale.

TRENT THOMASON AGRICULTURAL SCHOLARSHIP

The Trent Thomason Agricultural Scholarship was established by his family in his memory to help continue his legacy in the field of agriculture. His smile, friendship, support of our community schools and life-long work in agriculture will continue to be remembered and will grow into the future.

Students from our three local high schools receive scholarships each year from these funds. These graduates desire to further their education in the field of agriculture. In honor of Trent's memory

and in cooperation with the Thomason family's vision, we at Hunt's Brangus pledge 1% of the price of each bull in this sale toward the Trent Thomason Scholarship Fund.

Through your support of this sale last year, we were able to donate \$1,782 to the Trent Thomason Agriculture Memorial Scholarship. Please join us in finding ways to invest in the next generation of farmers.

Sincerely, The Hunt Brangus Family

CALVING-EASE BULLS

Over the years we have become more and more conservative on which bulls get **flagged as "Calving-Ease Bulls."** We have adopted the philosophy that it is better for us to have stricter guidelines than for you to be sorry at calving time. Obviously there are no guarantees for preventing difficult births in heifers.

Even the most proven "Calving-Ease Bulls" of any breed will sire a large calf every so often. However, this information is meant to serve as a guide for managing risk of calving difficulty in your first-calf females. Our goal is to help you eliminate heifer calving problems to the best of our ability.

REMEMBER: Compare Brangus to Brangus – No across-breed EPD comparisons can be made! Bulls indicated by the calving-ease flag symbol in their data block are considered to be low-risk bulls for calving difficulty.

BUT, let's get real on calving ease! Our "calving-ease bulls" are meant to be used to breed virgin heifers such that they will have little or no calving problems with their first calf. The other bulls in our catalog are very appropriate for use on cows that have already had at least one calf. There are almost no bulls in the entire Brangus breed that cannot be used on mature cows and have no calving difficulties. In fact, because the correlation with size at birth and growth is extremely high, you would be losing growth (and weaning weight) if you use our designated "calving-ease bulls" on mature cows.

In general, always use our bulls flagged as "Calving-Ease Bulls" on virgin heifers for their first calf and use the other bulls on any mature cows in your herd. On the other hand, a "calving-ease bull" to breed virgin heifers can be a God send.

PATERNAL GREAT GRANDSIRE				PATERNAL GREAT GRANDSIRE				PATERNAL GREAT GRANDDAM					
MATERNAL GRANDSIRE				MATERNAL GREAT GRANDSIRE				MATERNAL GREAT GRANDDAM					
DAM				MATERNAL GREAT GRANDSIRE				MATERNAL GREAT GRANDDAM					

1. Calving Ease Direct EPD – is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease which a sire's calves will be born when he is bred to first-calf heifers.
2. Birth weight EPD – predicts calf size and calving ease.
3. Weaning weight EPD – predicts preweaning growth potential.
4. Yearling weight EPD – predicts overall growth potential and post-weaning gain.
5. Milk EPD – predicts the maternal contribution a bull passes to his daughters for milk production and mothering ability.
6. Total maternal EPD – predicts the overall weaning weight of calves from daughters of a bull due to growth potential as well as milk production and mothering ability.
7. Calving Ease Maternal – is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.
8. Scrotal circumference EPD – predicts testicle size.
9. Ribeye area EPD – predicts muscling.
10. Percent intramuscular fat EPD – predicts marbling and quality grade.
11. Fat EPD – predicts external fat thickness and yield grade.
12. Heifer Pregnancy – Measure of the probability that a cow will have a calf by 2 years old.
13. Stayability – Measure of the probability that a cow will still be in the herd at 6 years old.
14. Mature Cow Weight – Prediction of the cow's weight as a 5 year old.
15. To make it easier to evaluate EPDs, the percentile ranking is shown below each individual EPD. This is a great way to understand where the individual ranks in the breed for that particular EPD. For example, where it shows “10%,” this means that particular EPD value is in the highest, or TOP 10%, of all non-parent bulls in the entire breed. (A 10% for BW, however, means lowest, or lightest.)
16. Actual birth weight within 24 hours of birth.
17. Weaning weight adjusted to 205 days of age and for age of dam.
18. Yearling weight adjusted to 365 days of age and for age of dam.
19. Yearling scrotal circumference (testicle size measured in centimeters) adjusted to 365 days of age.
20. Adjusted Ribeye Area Ultrasound Scan
21. Adjusted IMF% Ultrasound Scan
22. Adjusted Backfat Ultrasound Scan
24. Terminal Index – A decision tool for selection of animals with long-term end-product improvement as the goal.
25. Fertility Index – A decision tool for selection of animals that will improve long-term reproductivity as the goal.

**For your convenience,
non-parent breed average EPDs are on each page.**

2023 Professional Cattlemen's Bull & Female Sale – Cattle with Something EXTRA!

**GENOMIC-ENHANCED EPDS,
SIRE PARENTAGE VERIFIED,
SUPERIOR HEALTH**

We and our cooperators take very seriously our commitment to provide you with a healthy animal and to minimize the risk of introducing disease into your cow herd. We have provided genomic-enhanced EPDs, tested for and disclosed any possible genetic conditions, and verified the parentage of the animals we offer to you. You have the highest possible confidence in the information we supply. The State of Georgia is a Brucellosis-free and Tuberculosis-free state. We have genomically enhanced the EPD's on every animal available in the sale. The catalog provides all information we have regarding their status as carriers or possible carriers for any known genetic condition in the Brangus breed. All bulls have passed a stringent Breeding Soundness Exam by our herd veterinarian and test negative for Trichomoniasis.

Health Papers (Certificate of Veterinary Inspection) will be provided at no charge to buyers in order to allow shipment to Anywhere, USA.

WELCOME FROM DR. KENCADE SUMNER

It has been my pleasure getting to know the Hunt family over the last year.

You absolutely will not meet a nicer group of people to work with. They are passionate cattlemen who are committed to ensuring that their Brangus herd are pushing the boundaries of the breeds genetic capabilities.

This farm has a proven track record that does not disappoint. Each animal's welfare is important and no stone is left overturned when it comes to caring for their herd. Hunt's Brangus strives to maximize health and production by reducing the overall incidence of disease through stringent biosecurity and vaccine/deworming protocols.

Each bull that is for sale today has passed a breeding soundness examination along with testing negative for Tritrichomonas foetus (Trich). I will be available throughout the day to answer any specific questions that you may have about aspects of the breeding soundness exam. Certificates of Veterinary Inspection (Health Papers) will also be provided for interstate transport.

It is a privilege and pleasure to assist Hunt's Brangus in their cattle endeavors.

Sincerely,
Kencade Sumner, DVM

DDD Legacy 103B7

We are excited to offer semen on the newest addition to our Herd Bull battery. Legacy combines all the traits we are known for emphasizing, calving ease, excellent maternal potential, above average growth, balance in all other traits, and terrific eye appeal. He has top 25% EPDs for Scrotal circumference and adds terrific carcass value to his offspring. We just finished calving out his first progeny on our farm. We are excited about what we see out of his calves coming from our MC Something Special 889Y2 daughters! Our customers who love the show ring might also be interested to know that he sired animals of high distinction in the show circuit while in service at Triple Crown Ranch.

Semen is available in 10 straw units at \$40/straw.

- Notes(s):
- Denotes Genomic-Enhanced EPD Result
 - Accuracy of 'P' denotes Pedigree Estimate EPD

Here is a herd-changing AI option:

- **Balance:** Unsurpassed quality across multiple economically relevant traits
- **Longevity:** 12 years old and still breeding cows natural service use
- **Consistency:** High accuracy epds proven across many registered & commercial cow herds and in the show ring.
- **14 EPDs** in top 45% of the breed.
- **Superior REA & IMF, Terminal Index, Weaning & Yearling Weight, Milk & Total Maternal, Scrotal, Stayability and Fertility Index**

Conventional Semen is available at \$50 per straw with a minimum order of 10 units.
Contact Hunt's H+ Brangus to place orders, 770-548-7950.
