Welcome to the Scott Angus Cattle Open House and Spring Online Bull Sale. I think you will agree that the Scott Angus family has put together a powerful set of Angus bulls for your consideration. As the consulting nutritionist, I strive to develop optimal nutrition and management programs to match and express the genetic potential of the cattle while giving special attention to safeguarding soundness and reproductive longevity. At Scott Angus, the mantra is "cattle should never have a bad day" and every effort is made to uphold that ideal.

NUTRITIONAL PHILOSOPHY: The nutritional treatment of breeding stock from conception to breeding can have a profound effect on their lifetime potential. Nutritional influences on future health and productivity have been traced as far back as early embryonic development; a concept termed "fetal programming". That is why we focus not only on the nutrient requirements of the cow throughout her life cycle, but also the nutritional factors that affect gene expression of economically important traits in the developing calf. From conception to turnout, we focus on expressing the genetic potential of the cattle without compromising structural soundness and breeding performance.

BULL DEVELOPMENT: We believe in the concept of developing bulls, not finishing them. To properly develop breeding stock, we pay special attention to their energy, protein, trace mineral, and vitamin requirements. The bulls were developed on high-roughage, moderate-energy, high-protein diet. Particular attention was given to optimal vitamin and trace mineral supplementation to promote proper reproductive development and ensure reproductive longevity. We think that you will agree that our nutritional philosophy has produced an exceptional set of fertile breeding bulls that are ready to go to work for you. **Buy with confidence!**

What an honor it is to assist in the representation of Scott Angus Cattle in their inaugural bull sale offering! The Team at SAC is driven by an exceptional passion for the cattle and their clients, and to provide value added genetics to the industry. Their commitment to phenotype, fertility, and function is second to none. Taking a walk through the cattle, you will find the obvious commitment to foot structure, teat and udder quality, docility, and maternal presence.

Isaiah Shnurman
Genetic Hedging Solutions
402.992.6205

The commitment to make females, is what makes this set of bulls truly shine! They carry correct phenotype, performance, and pedigrees stacked with proven sires and dams. I couldn't ask for a higher quality of sound, athletic, and perfect foot bulls to represent!

ANGUS CATTLE

Thank you for your interest in our Scott Angus Cattle program. This marks our first inaugural online bull sale. This sale features natural calves out of our elite donors. These calves represent why we have chosen their mothers in our flush program, as well as ET calves out of our eminent pathfinder donor, SAV Blackcap May 7306. As I always say "the proof is in the pudding". This is the first step for us to introduce ourselves of who we are and where our vision is leading us. Our goals in the cattle industry is a simple as this: The 5 F words: First Feet, Foundation, and Fertility = Future. After that, you can move onto phenotype, calving ease, milk and udder structure, scrotal, and disposition.

The school of hard knocks has been our key - the trials we have experienced have built our program. The journey we have went through along the way and the blessing that have been given to us is not just good fortune in the cattle business, it's the people we've met - recognizing the blessings and miracles that God gives us is everything.

We invite you to come stay in our bunkhouse, tour the cattle, relax and find peace, and enjoy some fellowship.

Sincerely, Marlin Scott and family

SAC Nebraska 2018 is a true example of what the state of Nebraska represents in the Angus breed – growth, performance, stylish eye-catching appeal with the strong maternal background to ensure quality production and fertility. Nebraska recorded the highest 2022 SAC bull crop weaning weight of 965 lbs and 1014 lb 205 day weight.

His elegant, broody, SAV Renown dam by SAV Emblynette 3301, the model cow of the Angus breed, unmatched for broodiness and maternal function. 6639 is becoming a bigtime producer for SAC. She has a Birth Ratio of 4/101 and Weaning Ratio of 4/111. Her 2021 born SAV Governor bred heifer, 1639, is destined to be a future donor. Her maternal sisters sired by SAV Resource 1441, brought \$150k, 40k and 25k in the 2016 SAV Sale.

SAC Emblynette 7201 • Dam of Lot 2

SAV America 8018 • Sire of Lots 1, 2, 3, 4 and 5

Nance County has the perfect height, length and depth with a sound big foot. He will sire moderate birthweight with exceptional power and growth. Thick, stout, and built for the ranch world. 205 day weight of 986.

7201 one of SAC's premier donors, WR 4/99 is beautiful, phenotypically flawless, perfect uddered, and a Resource ET daughter out of SAV Emblynette 4286, (a seventh generation pathfinder and maternal monarch). 4286 averaged \$21,900 on six progeny at SAV. SAC retained her son SAC Rainfall 1747 in 2021.

Long-bodied, stout, and stylish earns his name Midwest. An America son with a wealth of performance and maternal value from pathfinder, SAC Emblynette 7305. He presents a herd-improving EPD profile with outstanding feet, production, and WR 111.

His reliable broody SAV Renown dam, 7305 out of the model cow of the Angus breed, SAV Emblynette 3301, is a flush sister to SAC Emblynette 7302 and SAC Emblynette 7303 both featured on SAC Belles of the Grade 2022 Female Sale. 7305 has proven to be an impressive bull maker with this America bull son being her third powerhouse bull offspring. She has a weaning ratio of 4/106 and her Acclaim daughter 9305 has a banger Scale House sired son also on the sale, SAC Scale Bender 2847.

Intense maternal power and the valuable pedigree combination of America mated to this beautiful brood cow with a picture perfect udder. Thick, heavy-muscled, beef bull with volume, capacity, fleshing-ability and breed-leading performance ranking in the top 25% in 12 EPD categories.

His maternal granddam, S A V Emblynette 3301, has been given the title of the Angus breed's model cow. She has generated over \$2 million in direct progeny sales. Her herd sire sons include Momentum, Hesston, First Prize, Impact, Intent, and Drover.

His Mustang dam 3568 is a phenotypical standout- Deep-sided and long-bodied, with all the right angles. Blending maternal excellence, performance, and pedigree makes for a rare combination. 3568 is energy-efficient and has the best disposition you could ask for. She is truly a female to build a herd around.

S A V Blackcap May 4517 • Dam of Lot 5

Recommended for large framed heifers and cows. This low-birth weight America son has muscle, rib-shape, and rugged build for the ranch world.

His dam is a full sister to Resource, Renown, Recharge, Watson, McCombie, and Grant. 4517 is the only 2 yr old to be flushed out of 4136 entire calf crop and went on to have the #1 weaning heifer in the 2019 SAV Sale. She is an elite female with world-class udder quality, massive volume, power, and unsurpassed femininity rolled up into one package.

A maternal sister produced SAV Magnify 1107, the \$200,000 third top selling bull of the 2022 SAV Sale

Scott Angus Cattle's personal favorite - he's soft made with spring of rib. Scale Bender has been a calf you can spot in a distance, he has the wide chest floor that every cattleman longs for. His calves will bend the scale and put money back in your pocket.

Scale Bender is out of a beautiful uddered 2nd calver, 9305, an Acclaim daughter to the pathfinder SAC Emblynette 7305. High maternal, good footed, and low birth weight bull, and top 10% in \$C.

He will put some power, punch and payweight into a set of feeder calves. Gentle disposition, good body length, excellent foot score, moderate birth and high maternal EPDs.

He's out of this moderate mighty cow, 9302, a Governor daughter to SAC Emblynnette 7302, a highlighted donor of the Belles of the Grade female sale. Lot 12 her Priority daughter 1312 was also featured on our Belles of the Grade female sale. 9302 puts everything she can muster into her calves, and leaves it all on the table - or the scale in this case!

A performance bull with calving ease awareness promises Scale Busting progeny results. The sons from \$275k SAV Scale House have proven the predictions about Scale House progeny to be massive volume, sheer muscle, added dimension and impressive EPD scores.

His Maternal Grand-dam RB Lady 890-116 is a remarkable female that stamps her progeny with her impressive phenotype and performance traits – birth and growth spread that dreams are made of, top feed efficiency 50K results are made of the 116 progeny and a well-known feed efficiency of GAR Objective 7125.

His excellent footed 116 Sensation dam, 8213 is making waves at Scott Angus Cattle as a new donor this past year with high numbered flushes! In her three years of production, she has proven to be a maternal powerhouse with four bull calves, all of which were top sellers each season and have feet like a mule.

T/D Doc Ryan 049 • Sire of 9

He's a super complete, big sided Doc Ryan bull awarded for his winning combination of performance, phenotype, and docility. He's the first calf out of a superb Governor daughter 0848 with great udder quality and maternally charged family line.

His maternal granddam, 8248 a 3240 daughter sired by Sensation, WR 3/99. Her 2021 born Altitude bull, SAC Altitude 1114, was a standout of his calf crop and retained as a herd sire at SAC. She also has a bull in this sale sired by Bloodline Lot #21.

Side Note: Doc Reilly, named after the family doctor that delivered Sam Scott and Abby (Scott) Ropers. As Rob would call him "Bubba", has been a family pet. He's been docile from day 1.

The Doc Ryan PROJECT

We choose Doc Ryan to sire our most elite virgin heifers and a few select registered cows as an outcross to our registered herd that is mostly based on SAV genetics. We were tickled with the great results of this project and look forward to seeing their future success in our customers' herds.

Doc Waters is a brute! He has the look and presence of a real breeding bull ready to make his mark on the industry. He combines phenotype, performance, scrotal size, and great temperament.

His dam is a broody, moderate sized, good footed Renown daughter and is a power bull maker at SAC. His maternal granddam, SAV Blackbird 5296, is a full sister to 1082, dam of the proven maternal Genex sire SAV Pioneer 7301 and also a maternal sister to SAC's donor cow Blackbird C1082.

Side Note: Doc Waters is named after Kelly (Kennedy) Scott's family doctor who practiced in O'Neill, NE. He was quite a character and always had a serious personality when he came in the room.

Read the writing on the wall, Doc Reeder is the choice for increasing your herd fertility (HP 16.1) and heavier weaned calves. Loaded with natural thickness, moderate build, and deep soggy body found in all the Doc Ryan bulls.

Plowing his way to the top of the EPD's with the help of his President dam, SAC Madame Pride 0804. 0804 is a genetic treasure with the famed Madame Pride lineage back to 3rd dam 5290 who continues in production at Mohnen Angus after 18 years of age and granddam 9803, a 7th consecutive generation SAV Madame Pride donor, the anchor female of Davenport Angus embryo program. Her outstanding first four progeny in SAV sales averaged over \$17k.

Side Note: Doc Reeder, the family doctor of the 1930s, was a dedicated family doctor and came to the house to deliver Marlin's mother, Karen (Robinson) Scott.

Doc Maly puts the "M" in Marbling! This low birthweight Doc Ryan son is branded Certified Angus Beef with a moderate build, and deep rib. He had the highest marbling scores of his calf crop with 1.18 (top 10%) and ranked top 5% in \$C at 305.

He is the first calf out of a 3-year-old Rainfall dam 0408 who stems from a SAC foundation donor SAV Emblynnette 4408 WR 7/103 (dam of \$150k Emblynnette 7411 and \$80k SAV Birthstone 8248). 0408 has an incredible EPD profile as she hits the top 15% in ten categories including top 1% RADG, MW, and MH; top 2% WW and YW; top 4% in YH. No holes in this girl's performance or maternal heritage!

Side note: Doc Maly, named after a childhood doctor of the Scott family. He delivered Marlin's older brother, Mark. However, he didn't deliver Marlin because he had a bass on the line and didn't make it back from the hospital in time from the fishing pond.

He qualifies for Certified Angus Beef and ranks in the top 10% or less in 9 EPD categories! Carcass bull - high carcass weight at 85 (top 1%)

His maternal \$8.9k granddam 8245 sold on the 2022 Belles of the Grade female sale is a historic Sensation/3240 daughter with beautiful, feminine, angular, perfect udder and foot quality. Doc Thompson's striking Elation dam takes her place among the top 2020 model cows at SAC with a bright future ahead.

Side Note: Doc Thompson was the Ropers family doctor and delivered Andrew John (Abby's husband A.J.) in Broken Bow, NE.

Recommended heifer bull with the EPD profile to create great replacement females -- BW and CED EPDs in the top 10% (Milk top 1%) and solid scrotal and feet scores! -Command is proving Governor sired bulls as one of the best calving ease option and adds dimension and maternal to his progeny.

His broody Active Duty dam 8012 (WR 3/100) shows off her femininity, angular appeal, and udder quality with no question from her prolific pathfinder dam SAV Emblynette 3240 who was in production for 18 years. Her pathfinder Network worth maternal sister 8172 (purchased by Ingram Angus for \$45k) is the second top marbling female of her calf crop and the dam of the \$47,500 SAV Best Interest 0136 at Genex AI Stud.

Governor \$400k was responsible for the top-selling bull in Herbster Angus Farms 2020 Bull Sale, the top-selling bull in the 2020 Voss Angus Ranch Bull Sale, and his sons averaged over \$14,000 each at the 2020 Schaff Angus Valley Sale.

SAC Hustle 2208 is an outcross jackpot! A deep soggy Sitz Resilient sired bull with perfect feet demands attention in the pen – pedigree, performance, and cow family strength.

Sitz Resilient 10208 had a weaning ratio of 121 and an adjusted yearling weight of 1,530 pounds for a yearling ratio of 117. His PAP score of 37 at 18 months of age contributes to an elite PAP score EPD and makes him a great choice for producing cattle that will work at altitude.

His Rainfall dam is the real deal - Moderate height, high capacity udder, donor quality appeal and big bodied. Also, just a doll with her docility. The SAC team loves her! Network Pathfinder Granddam SAV Abigale 7425 has created a heavy-milking maternal team of daughters on the ranch. WR 7/102

This historic Resource bull is named after one of SAC's greatest resources during calving season, Protection - wooded area and calving facilities to protect against the harsh winter. He is an all-around performer who will deliver superior muscle and masculinity with added length of body. Resource bulls are known to be foot improvers and sire great udder and disposition females.

He is backed by his legendary pathfinder donor dam, SAV Emblynette 3240, who was in production for 18 years. She records a weaning ratio of 107 on nine calves and an IMF ratio of 113 on 13 progeny scanned. She transfers her signature look -- big hipped, long spined, angular body to her progeny whether sons or daughters. It's hard to find fault in what she creates. History has shown it does not seem to matter which sire is used, you will love them!

Rifle won't shoot you wrong when it comes to power and growth. He's a stout bodied historic Regard bull great for the herdsman looking for the carcass pick of the bull crop. He is in the Top 20% in 11 EPD categories.

His massive, big-bodied Potential dam sports a nice square udder with great flushing ability. She is from the oldest cow family at SAV - Primrose Mistress/Primrose.

Rugged, deep-ribbed, and built rock-solid all the way down to his feet. He comes from one of the most fertile cows on the SAC Ranch. He is a great cow breeding choice for carcass, growth, and high scrotal performance.

His coal black broody, Active Duty dam, 8009 is a fertile tank with abundant milk.

His maternal granddam 9803, a 7th consecutive generation SAV Madame Pride donor before becoming the anchor female of Davenport Angus embryo program. SAC has raised 11 top end 9803 females in our herd. 0804 (a 9803 granddaughter) is the dam of Doc Reeder on the sale.

Lot 28

W/C Bankroll 811D • Sire of Lots 27-31

If you were curious what a SimAngus bull raised at SAC would look like – here you go! A one-of-a-kind collection of SimAngus flush brothers from the mating of the genetic giant, \$205k W/C Bankroll 811D to the eminent pathfinder SAC donor SAV Blackcap May 7306!

Bankroll is the talk of the Simmental world to this day with moderate birth, spring of rib, and volume. He is one of the most complete and intriguing animals Wernings have ever raised!

Their legendary granddam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor and top income producing cow at SAV.

These flush brothers bring width, power, durability and an added punch of heterosis! Cornerstone Bank is our standout favorite for his great muscle expression and soft made stature. Riverbank is also well put together with excellent feet and large scrotal. They are all 1/2 AN 1/2 SM, except for Lot 33, which is 1/4 AN 3/4 SM

SAC Elba 4236- Dam of Lot 32

A strategic mating move combining the historic SAV Elba cow family to Simmental breeding king, Bankroll. Break the Bank is moderate made, well balanced, attractive in muscle shape, and has good docility.

His New Day dam, 4236, is a beautiful third generation SAV embryo donor and was in production with SAC for over five years showing her fertile longevity. SAC retained her 2020 born President daughter, 0236, a super maternal broody donor prospect with excellent milk currently raising a Stellar heifer.

HPF Quantum Leap Z952 • Sire of 33

Donna 73T • Dam of 33

A golden opportunity to obtain a monumental Meyer Ranch 734 lineage bull. He will give you mass, power, bone and production.

Sired by the famous Quantum Leap one of the most exciting purebred Simmental bulls with calving ease combined with eye appeal and body depth with maternal traits and an awesome cow family backing him up! He was honored with the title of Grand Champion and National Champion Simmental Bull in eight stock shows in 2014 and 2015, including the American Royal!

Time Traveler's Dam, the gorgeous donor Donna 73T is out of the foundation \$200K evaluated donor cow Coleman Donna 386. 73T alongside her full sisters, 8386 and 7386, will go down in history as the primordial members of the Donna tribe's infusion into the Simmental gene pool.

34 HEIFER PREGNANCY, DUE 9/1/23

Sitz Pride 200B, one of the breed's elite foundation females, with 4 progeny that record and average birth ration of 96 and three natural calves with an average weaning ratio of 105, this highly proven donor in the prime of her life has 33 progeny genomic tested to provide exceptional accuracy to her elite genomic-enhanced EPD profile. Elite for Weaning Weight EPD, Yearling Weight EPD, hot Carcass Weight EPD and \$Weaned calf value index along with her superior Ribeye area measure EPD, percent heifer Pregnancy EPD and \$Feedlot value index.

Best known as the dam of the \$50k Sitz Stellar 726D. He's the top 1% in Foot Shape, Foot Angle, and hair shedding EPD, has become a cornerstone sales leader for ABS, whose sons have dominated Sitz Angus sales for the past several years. Sitz Resilient 10208, \$165k Sitz Stellar 726D son, was the record-setting bull of the Fall 2019 Sitz Angus Ranch. Sitz incentive 704H, another Sitz Stellar 726D son, sold for \$235k on the 2021 Sitz Angus "Elite Sort" Female Sale. Sitz Pride 379H, a flush sister to the \$23k Sitz Tailor Made 448H, also on the same sale as Sitz Pride 200B, is the Baldridge Command daughter of 200B, sold for \$120k.

Basin Jameson 1076 is the \$600,000 Montana record-setting sire who balanced a 70 lbs birth weight as his dam's first calf with an adjusted 205 day weight of 834 lbs and an adjusted 365 day weight of 1,352 lbs while being fed a low energy ration designed for his long term reproductive fitness and semen production

35 SITZ PRIDE 200B EMBRYOS

36 S A V BLACKCAP MAY 7306 EMBRYOS

Offering 3 IVF Embryos by Basin Jameson 1076 AAA 20071781 and SAV Blackcap May 7306

SAC guarantees one pregnancy.

7306, a 15 year old, pathfinder Boyd New Day 8005 direct daughter to the legendary dam SAV Blackcap May 4136. 4136 is the Angus breeds most influential genetic contributor, and top income-producing cow, generating \$10.2 million.

7306 has four natural bull progeny averaging \$18k on past SAV sales, including the \$25k #1 yearling weight bull at 1707 pounds in the 2015 sale. 7316, a stunning Regard direct daughter of 7306, is also in the flush program at SAC.

7306's third-generation pathfinder dam, SAV May 2397, is the third top income-producing cow in SAV history. We raised allot of 2397 ET calves for SAV, they were easily some of our best calves to watch grow up here at SAC, including SAV Angus Valley.
