TERMS & CONDITIONS

Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). All bulls are to be settled for on sale day prior to load out.

THOMAS ANGUS RANCH GUARANTEE

Every bull we sell is fully guaranteed throughout the first breeding season - no questions asked! If anything should cause your new bull purchase to be rendered unsound in any way, a replacement of equal value or credit in our next sale will be extended immediately, less any salvage value.

HERD HEALTH

Thomas Angus Ranch cattle will be accompanied by proper health certificates for timely shipment. All bulls have been vaccinated with 8-way, Haemophilus Somnus, IBR, BVD P13, BRSV, Lepto, Pasturella and Ivomec Plus. All bulls selling have passed a breeding soundness exam.

SALE MANAGER

Genetics that Tamed the West: ANNUAL SPRING SHOWCASE

We have been blessed beyond what we deserve this past year, spending valuable time with loved ones, sharing conversations with colleagues, and reminiscing on our heritage during interviews with Allflex and presentations for Certified Angus Beef.

Just as every year before, the new year offers a new set of challenges but also new opportunities. And we are excited about what the New Year brings to our operation and the cattle industry.

Reflecting on the positive reception of last year's auctions and the overwhelmingly positive response from those who purchased cattle, we are incredibly excited to introduce this year's selection of bulls and females. We have put together an offering that will rival any spring sale we have held before.

This year, we bring exciting, fresh genetics from Thomas Angus Ranch progeny demonstrating industry-leading growth and carcass quality. This unique sale offering exceeds across the board, but the excellent feed efficiency, carcass quality, and PAP scores are especially impactful to ranches in 2024.

Thank you for your support of our genetic program. We strive to bring significant value and unique solutions to your operation through high-value progeny. We are proud that this year is no different, as we bring the most robust Spring sale offering to date.

We are here to help your operation succeed. If you have any questions or requests, please do not hesitate to contact us. And if you are willing, we would greatly appreciate your feedback — scan the QR code below with your phone.

God Bless,

The Thomas Family

ANGUS RANCH

Genetics that Tamed the West: Highlights of the Offering

A Better Bull

Efficient Feed Conversion Without A Catch

We pride ourselves on our cattle's feed efficiency on grain and grass. Converting low-quality feed to body weight ensures our cattle do well during harsh winters or dry summers and that their progeny will also gain at a high rate in the feedlot. Feed-efficient animals will have a beneficial impact on your bottom line as feed requirements and feed bills decrease.

Feed efficiency is assessed on nearly every Thomas Angus Ranch bull for over 30 days on 3rd party verified feed intake systems. Over a decade of historical feed intake data is also used to inform our mating decisions. Not just any animal will convert feed efficiently, especially not at the Thomas Angus Ranch progeny level. Significant time has been spent refining our cattle to offer great feed conversion while maintaining carcass quality and adaptability.

The sale lineup is full of high-performance, well-balanced sires. However, we want to direct your attention to a few notable bulls selling in this sale:

- **Lot 303** is a profit-driving powerhouse that converts feed into muscle like few other bulls can. He comes from the well-known HCC Whitewater 9010, capturing his sire's impressive phenotype and elite EPDs. This bull has no weak points and stands in the top 10% of the Angus breed for each weaning weight, yearling weight, \$F, and \$B.
- **Lot 335** is a DB Iconic G95 son who lives up to the name! He is the complete package; this bull has everything from growth to carcass quality. This iconic bull is in the top 3% for weaning, top 4% for yearling, top 10% for \$W, and in the top 15% for both \$G and marbling.
- **Lot 402** is a Connealy Clarity son that comes with all the bells and

whistles. This well-rounded bull boasts great muscle expression and foot quality and is in the top 5% for \$C and the top 10% for each marbling, \$G, and \$B. He even ranks in the top 15% for \$F.

- **Lot 406** is a son of GB Fireball 672 and a money-making marvel. Simply put, this bull will breed progeny that can summit mountains while growing like a weed. He tested at the low PAP score of 38 at 8600 feet. And, on top of his ability to perform at high elevations, he ranks in the top 1% for CED, top 2% for marbling, top 3% for \$G, top 4% for birthweight, top 10% for \$B, and top 15% for \$C.

The list of superior bulls does not end here, however, as many high-performance and high-efficiency bulls are packed into this sale offering.

Performance Despite The Altitude

Bulls that perform as well at high elevations as low is another reason our genetics are set apart from many other programs. We have selectively bred low PAP bulls for nearly a decade to ensure that the animals we sell are built to last even in the most challenging conditions.

The years of PAP data collected on various sire groups inform each breeding selection. Data is significant, but we also verify our bulls by testing at elevations 7,800 feet or higher. We do not take our job lightly. Ensuring the bulls you purchase excel in your unique environment is very important and has been our program's approach since its onset.

Years of careful selection have allowed us to derive bulls with excellent PAP scores and rank high in the Angus breed in performance traits. This combination rarely exists anywhere else. The low input and high resiliency of this cattle offering will make the high-altitude grazing much easier on you and your team.

Long-time customers of Thomas Angus Ranch, Scott Laramore, and

"Whatever you do, work heartily, as for the Lord and not for men knowing that from the Lord you will receive the inheritance as your reward. You are serving the Lord Christ."

Colossians 3:23-24

Carson Anderson have been beyond impressed with our low PAP bulls offering. They shared with us the following endorsements:

"I started buying Thomas Angus Ranch bulls 11 years ago for my high altitude customer base. When you take delivery of the cattle, you see increases in weight, feed ability in yards, and cutability in packing houses. I am sold on the product that Thomas Angus puts out there."
-Scott Laramore of Laramore Livestock

"We ranch in Wyoming at 7300ft to 8000ft and have been buying Thomas bulls since 2016. They do great at altitude. We have seen higher weaning weights, great daughters, and the customer service you get from Thomas's is unmatched." -Carson Anderson of Slow and Easy Ranch

As you review our low PAP offering, you will appreciate the combination of high-value and high-return EPDs we are offering in this year's sale.

Foundational Females

Enhanced Genetic Capabilities

In addition to our outstanding bull lineup, we are excited to show off an elite set of fall-bred females and spring cow/calf pairs that were carefully selected for this sale. These females were picked from the heart of the herd, ensuring that you are taking home the very best we have to offer.

These broody females come from a historic and well-established genetic background, infamous for their calving ease, stout calves, and unmatched longevity. Their inclusion in this sale is a rare opportunity to access top-tier genetics for your herd.

Our decades of rigorous female selection include the evaluation of maternal abilities, reproduction efficiency, and herd productivity. We understand

the importance of productive and reliable females, and we are confident that these females will leave a lasting impact on your herd's profitability.

This sale lineup holds many high-earning females that are the foundation of a successful ranch, so we wanted to share a few examples:

- **Lot 529** is a stunning, proven POSS Maverick daughter out of a Baldrige Expand dam, who boasts fantastic balance and unequaled capacity. With a DB Iconic G95 calf at her side sale day, this female is ready to raise fantastic calves at her future home. She ranks in the top 20% for each DMI, marbling, and \$B.
- **Lot 528** has an undeniable class in her structure, somehow hitting a balance of powerful features with a broody depth of body; this female is correct in every sense of the word. This eye-catching female ranks in the top 4% for both \$B and \$F, top 5% for weaning weight, and the top 10% for each yearling weight, \$C, and \$W.
- **Lot 508** has a sterling pedigree; she is an HCC Whitewater 9010 daughter out of a Woodhill Relevance dam, made evident by her clean front, long spine, and wide base. Her numbers are also high-end, being in the top 10% for \$G, and the top 15% for each marbling, \$B, and \$C. This elegant bred heifer is due to calve on September 15th to Baldrige Heat Seeker H925.
- **Lot 510**, a GB Fireball 672 daughter, is a knockout female that pushes calving ease, carcass quality, and breed-leading performance to the max. Just look at her numbers; she is in the top 1% for each CED, birthweight, and \$G. Top 2% for marbling and \$B. All while ranking in the top 4% for \$C. To sweeten the deal further, this bred heifer is due to calve on August 25th to HPCA Veracious, a bull known for adding carcass value.

As you browse this catalog, you will see a high-value auction that offers many of the best Angus females that will sell this year.

“Over 25 years ago we started buying Thomas Angus bulls. What got us started was the quality that ran deep in the cow herd. What keeps us coming back is the honesty and the integrity of the people at Thomas Angus.”

Duane Martin, Jr., Duane Martin Livestock

"We have been buying Thomas bulls since 1979. The Thomas family and bull genetics have treated us well over the years. Our cows continue to thrive in Lake County and our latest bunch of steers graded 29% Prime. We enjoy doing business with them!"

Bill Tracy, Owner, Tracy Ranch

Welcome Angus Breeders,

A high-quality set of bulls and females will be offered at the spring Thomas Angus Ranch sale. Again, this family operation has bred some tremendous individuals that will make an impact in any operation. The consistency of this herd is impressive with cattle that have met the demands of their customers for many years. You will be buying an animal backed by proven genetics from Thomas and we hope you analyze this strong sale.

The bull portion of the sale always features excellent individuals. Popular sires that meet the demands of the industry will be represented. Calving-ease, growth and carcass genetics are what you will find in the Thomas herd and this year's bulls are as deep as ever. Every sale has a select group of females and as you evaluate this set you can see the maternal traits people recognize from Thomas Angus. Ranch. We are proud of the quality and depth, so please look at this offering. Rob and Lori Thomas have been long time family friends. The

vision passed on through the generations shows. This is a family operation making their living in agriculture. They stand behind their product and when you do business with Thomas Angus Ranch, you get a program. Clint Brightwell and the crew do a great job so feel free to contact them with any questions you may have.

It's always a pleasure to be helping this great family, so please join us February 27, in Baker City, Oregon. We will be at the sale site early in the week so feel free to contact us.

"We ranch in Wyoming at 7300 ft to 8000 ft and have been buying Thomas bulls since 2016. They do great at altitude. We have seen higher weaning weights, great daughters, and the customer service you get from Thomas's is unmatched."
